Foreword
Evan Tse
President of HKOMA

Welcome to the HKOMA Annual Directory (Issue 2022)! I am very pleased to share my vision for the Hong Kong optical industry with you all here.

This year is the 40th anniversary of Hong Kong Optical Manufacturers Association (HKOMA), which marks the beginning of a new milestone. I am much honored to be elected as the new president, and hope that in the next two years of my term, together with the new executive committee, we could create another exciting chapter for HKOMA as well as the Hong Kong optical industry as a whole, since our theme of celebration for this anniversary is "Gathering elites for future".

Hong Kong eyewear products have been internationally recognized for their excellent quality since the 1990s. Hong Kong has always been one of the world's top export destinations for eyewear products. The export volume had once been ranked second in the world after Italy for more than 10 years. Despite the tremendous challenges due to COVID-19, Hong Kong's total exports of spectacles, lenses and frames remained high up to HK$16 billion in the first 10 months of 2021, with a growth of 25.6% from the same period in 2020. However, when compared to the same period in 2019 before the pandemic, the export value has dropped by almost one-third.

The COVID-19 pandemic has devastated the global economy and caused unprecedented changes to the global business environment and consumption patterns. Although the COVID-19 vaccine rollout brought us hope, the spread of the variants added uncertainty to our lives. The globalized industrial landscape and supply chain were dismantled and re-assembled amid international political uncertainties. Hong Kong eyewear enterprises are export-oriented, thus facing even more severe and complex challenges. We need to explore ways to overcome this turmoil to make a better future for the eyewear manufacturing industry, as well as to identify a more suitable path for the industry's development.

Smart manufacturing and digital transformation are among the challenges for the global manufacturing industry. We must go beyond the traditional thinking and upgrade our products with innovative elements. In the past 10 years, some manufacturers in the industry have invented new products from OEM or ODM to OBMs. They also devoted time and efforts to develop their own brand production and marketing, which have earned them a position in the market and gained reputation from customers.

In order to meet the growing needs of the industry, HKOMA is committed to provide all kinds of information and activities to enhance the industry competitiveness. Looking forward to the new year, we will put immense efforts in the following categories to foster the development of the industry:-

- **Strengthen Industry Exchanges**
  To hold monthly online meeting for members and counterparts to exchange information both locally and internationally.

- **Encourage ECO Friendly Production**
  Industrialists have a mission to slow down global warming, for example, by executing green manufacturing and reducing carbon emissions. HKOMA is discussing a study on recycling of metal waste as eyewear raw materials with Hong Kong Productivity Council.

- **Establish Supply Chain Networking**
  To organize networking events in mainland that would create opportunities for business matching between eyewear manufacturers and suppliers.

- **Set-up Digital Application Platform**
  As e-commerce has undergone rapid growth during the pandemic, HKOMA is exploring how to set up a digital application platform for future prospects in this sector.

In addition, HKOMA is planning for a series of activities, including exhibitions, online and offline seminars and workshops, that can help industry members to achieve better innovations and improvements, technology management upgrades, and quality assurance development, all of which will enhance Hong Kong's competitiveness in the global eyewear market, as well as provide the industry with insights about the latest market situation and potential business opportunities.

Despite the negative factors that have affected the industry in recent years, with great resilience, Hong Kong optical industry has well adapted to the new normal and coped with different contingencies successfully. I believe that when industry members are constantly upgrading their company strengths and making timely adjustments to their business strategies, we would be able to cope with any changes at ease.

Finally, I would like to wish you all good health and prosperity.

序言

謝小雁

香港中華眼鏡製造廠商會 會長

歡迎閱覽香港中華眼鏡製造廠商會(下稱商會) 2022年度會刊! 我很高興在此同大家分享對香港眼鏡工業的看法。

今年是商會成立40周年。在這個標誌著新里程碑開始的重要時刻，我很榮幸當選為新任會長，並希望在我未來兩年任期內，與商會新屆執行委員會攜手努力，為香港眼鏡工業的進步和發展譜出新篇，一如商會40周年誌慶的願景主題 “匯聚精英，共創未來”。

早在1990年代，香港眼鏡產品的品質就享譽國際。 香港一直是全球眼鏡產品的重要出口地之一。 出口量曾歷經10多年僅次於義大利位居世界第二。儘管面對新冠疫情帶來的巨大挑戰，香港在2021年前10個月的眼鏡、鏡片和鏡框出口總額為160億港元，與 2020 年同期相比增長 25.6%。然而，與疫情前的2019年同期比較，出口額下降近三分之一。

疫情的爆發加速了全球商業環境和消費模式的變化，同時也對全球經濟造成了重創。疫苗接種的推出給我們帶來了希望，但變種的傳播又給我們帶來了更多的不確定性。與此同時，全球化的產業格局和供應鏈在國際政治不確定性中被拆解和重組。 以出口商為主的香港眼鏡企業面臨的挑戰是更嚴峻和復雜。 我們需要共同思考和探索眼鏡製造業在這場動盪中的未來，冀能夠找到適合行業發展的路向。

智能製造和數碼化轉型也是全球製造業面臨的挑戰。 我們需要超越常態，創新升級。 近10年來，行業內部分廠商已將產品從OEM或ODM生產到OBM，他們積極努力發展自家品牌產銷，在市場上確立了地位，贏得客戶的讚譽。

為了滿足行業的需求，商會一直努力向會員提供各種信息和活動，以促進行業的發展。在新的一年，我們將在以下範疇致力，冀能加強行業發展的潛力：-

- **加強行業交流**
  每月為會員和國內外同業舉行線上會議，推動業界資訊交流，加強聯繫。

- **鼓勵環保生產**
  推行綠色製造，減少碳排放以冷卻全球變暖是工業家的任務。商會與香港生產力促進局正在探索一項有關金屬廢料回收，循環再造成眼鏡原材料的研究。

- **設供應鍊聚會**
  將在內地舉辦交流活動，讓眼鏡製造商和供應商洽談，進行業務配對。

- **建數碼化應用平台**
  受疫情影響，電子商務發展更加蓬勃，商會正在研究如何為行業對應未來市場需要, 設立一個數碼化應用平台。

此外，商會正籌劃一系列活動，包括:展覽會、線上線下研討會和工作坊等，以鼓勵業界持續創新改進，技術管理增值，和建立品質保證，在提升本業於全球眼鏡市場競爭力的同時，亦能夠讓業界洞悉市場最新潮流，探索更多商機。

儘管近年行業受到各種不利因素影響，但香港眼鏡同業均能夠從容適應新常態，以極強的柔韌性應對各種突發事件。我深信，只要行業同仁不斷提升自我，適時調整策略，發揮公司團隊優勢，自能輕鬆應對任何變化。

在此祝願大家身體健康，萬事如意。

HKOMA 40 SINCE 1982

THE VISION COUNCIL

THE VISION COUNCIL

congratulates

the HONG KONG OPTICAL MANUFACTURERS ASSOCIATION

on its 40th anniversary

1982 2022

Sincere congratulations to the Hong Kong Optical Manufacturers Association for its 40 years of activity in our challenging sector. Many changes have occurred during these years and HKOMA has always been an authoritative reference point for Hong Kong optical industry and other associations around the world as ANFAO. In dramatic times like the one we are experiencing, this association has always had the ability to play a vital role in promoting the eyewear segment, its associates, and to help them to achieve excellent results.

The partnership with ANFAO and MIDO has remained steadfast through the years, we have built a really strong and exclusive collaboration that has led us to great successful events in Italy and Hong Kong.

I am glad to have this opportunity also to thank publicly the entire HKOMA team: accuracy, professionalism, passion, and commitment of its staff are unique skills and our congratulations go to all the people part of this great team.

Looking forward to meeting you in person very soon!

Giovanni Vitaloni, President of ANFAO and MIDO

On behalf of LEOO, the association of French Optical Manufacturers, and its members, it gives me great pleasure to extend my heartfelt congratulations and best wishes to Hong Kong Optical Manufacturers Association, on the auspicious occasion of the 40th anniversary of HKOMA.

As a partner, I must take this opportunity to applaud HKOMA for all your accomplishments throughout these years.

May the friendly cooperation between HKOMA and LEOO enjoy everlasting friendship and flourishing cooperation.

We wish HKOMA every success in the years to come.

Sandra Timon
President
LEOO - Association of French Optical Manufacturers

LES ENTREPRISES DE L'OPTIQUE OPHTALMIQUE

ERIC LENOIR

Silmo Director

SILMO | OPTICS & EYEWEAR PARTNER SINCE 1967

In these troubled times, where physical meetings and moments of professional conviviality have become considerably distanced, the optical family needs to find opportunities to gather and move forward together towards a bright future.

HKOMA is one of the most active, innovative and forward-looking associations of manufacturers in the sector. This 40th anniversary comes at the right time to pay tribute to all its past and present esteemed members who have contributed so much to the development and prosperity of the optics and eyewear industry.

To all of you, we wish many more years of exceptional know-how, original creations and incredible innovations for the greater benefit of the visual health and beauty of humanity.

To all of us, we wish to finally meet again to celebrate this anniversary.

OPTICAL WORLD

On behalf of the whole OPTICAL WORLD team we congratulate the HKOMA on reaching its 40th Anniversary. HKOMA has been a leading association representing Hong Kong manufacturers over these past four decades. We at OPTICAL WORLD share your celebration as we mark our 50th Anniversary this month.

The whole world has experienced many problems over the years, whether it be economic, political or more recently Pandemic – but the HKOMA have thrived and supported its members throughout.

We offer our sincere and hearty congratulations and wish you another 40 years of success!

HKOMA 40 SINCE 1982

中華眼鏡製造廠商會
四十年誌慶

香港中華眼鏡製造廠商會成立以來，一直在各方面引領眼鏡行業前行，為業界爭取發展權益。在此謹賀商會四十年誌慶，往下紮根，向上提昇，開啟全新里程，「匯聚精英，共建未來」。

VMAGAZINE 視覺生活 Vision in Life

Congratulatory Message
Margaret Fong
Executive Director of Hong Kong Trade Development Council

On behalf of the Hong Kong Trade Development Council (HKTDC), I take pleasure in congratulating the Hong Kong Optical Manufacturers Association (HKOMA) on its 40th anniversary and offer my sincere thanks to the HKOMA for its continued support of the city's optical industry.

The COVID-19 pandemic has accelerated change in the retail sector, with many spectacles chains, brands and designers turning to e-commerce and social media marketing for survival and long-term growth in both domestic and overseas markets. Despite challenges faced by the industry globally, Hong Kong's total exports of spectacles, lenses and frames were valued at HK$17.9 billion in the first 11 months of 2021, with a growth of 24.3% compared to the same period in 2020. The top five export markets were the United States, Italy, Mainland China, Australia and Japan.

With global sourcing become increasingly digitalised in the wake of the pandemic, the HKTDC has gradually resumed organising physical shows in Hong Kong while continuing to make use of digital technologies. We see the online-and-physical format of events as crucial to helping businesses adjust to the new sourcing model and overcome the challenges in the current business environment. The HKTDC Optical Roadshow | Physical+Online was held in June 2021 to showcase a variety of on-trend eyewear and accessories, and the HKTDC Lifestyle Sourcing Show | Physical+Online was staged in December 2021 to showcase the latest optical products as well as toys, baby products, gifts and premium, houseware and wine & spirits. Themed "Sourcing in Style", the show drew more than 580 exhibitors from nine countries and regions and welcomed some 9,500 buyers to visit in person or browse through a huge array of products online, while more than 3,100 business meetings were arranged during the show.

The 19th Hong Kong International Optometric Symposium was also held in an online-and-physical format in November 2021. With the theme of "Updates on Myopia under the Pandemic", the Symposium featured experts from Canada, Mainland China, Hong Kong, Singapore and the United Kingdom to share the latest research on myopia progression and tactics for myopia control during the pandemic.

The fruitful alliance between the HKTDC and HKOMA has been instrumental to the success of Hong Kong's optical industry, and the two organisations will continue to work together to ensure that business can go from strength to strength. We wish the association and its members a happy and prosperous 2022 with many more milestones to come.

賀辭

方舜文

香港貿易發展局 總裁

本人謹代表香港貿易發展局（香港貿發局），衷心祝賀香港中華眼鏡製造廠商會創會40周年，並感謝商會一直以來對香港眼鏡業發展的鼎力支持。

疫情為零售業帶來急劇變化，眼鏡連鎖店、品牌及設計師紛紛投向電子商貿及社交媒體營銷，發展本地及海外市場，積極於逆境下求存，實現長遠增長。儘管環球業界面對重大挑戰，2021年首11個月，香港眼鏡、鏡片及眼鏡框出口總值達179億港元，較2020年同期增加24.3%。首五個出口市場包括美國、意大利、中國內地、澳洲和日本。

環球採購模式已邁向數碼化，為協助中小企繼續應對疫下的採購模式及營商挑戰，香港貿發局正逐步恢復在香港舉辦實體展覽，並會繼續以「網上加實體」混合模式舉行活動。於2021年6月舉行的香港貿發局眼鏡巡禮 | 實體+網上展為業界展示多款流行眼鏡及配件。而於12月舉行的香港貿發局「時尚採購匯」| 實體+網上展則同時呈獻最新的眼鏡產品、玩具、嬰兒用品、禮品及贈品、家庭用品及美酒。展覽以「時尚採購　開拓商機」為主題，吸引了來自9個國家及地區、超過580家展商，約9,500名業內買家入場或於網上觀看產品，促成超過3,100場商貿會議，讓展商與來自世界各地的買家交流洽商。

第十九屆香港國際視光學會議於2021年11月以線上線下的形式成功舉行。會議以「疫情下近視發展」為題，廣邀來自加拿大、中國內地、香港、新加坡及英國的專家分享疫情下近視加深的情況，以及控制近視的策略。

香港貿發局與香港中華眼鏡製造廠商會的緊密合作，對香港眼鏡業的成功發揮重要作用，雙方將繼續努力，促進香港眼鏡業不斷發展。在此祝願香港中華眼鏡製造廠商會及全體會員2022年生意興旺，迎接更多豐盛的里程碑。

Congratulatory Message

Mr Mohamed D. BUTT, MH

Executive Director of Hong Kong Productivity Council

As the world's third largest exporter of spectacles and frames, Hong Kong is world-renowned for its pursuit of innovative designs, advanced manufacturing technologies and application of eco-friendly materials.

Behind the driving force is the Hong Kong Optical Manufacturers Association (HKOMA) which has played an instrumental role in the industry's pursuit of excellence, leading to the "Made in Hong Kong" brand steadfastly maintaining its glamour on the international stage, unfazed by the COVID19 pandemic. Since January 2021, Hong Kong's total exports of eyewear reached HK$14 billion, with a year-on-year growth of 28%, which is definitely something to be proud of.

On behalf of the Hong Kong Productivity Council (HKPC), I would like to offer my warmest congratulations to HKOMA, as it celebrates the 40th anniversary enhancing the competitive strengths of the local industry. Over the years, HKPC has worked closely with HKOMA to realise various initiatives to promote industry development, in a bid to help local players upgrade and transform for sustainable business, while embracing challenges and opportunities. Recent examples include a "Hong Kong Eyewear Good Design" project which has successfully obtained funding support from the Trade and Industrial Organisation Support Fund (TSF) to extend the reach of the Hong Kong eyewear industry to Belt and Road markets through exhibitions, seminars, and business matching sessions. In addition to this project which was completed in May 2021, an "Eyewear 3D Design and Modelling Course" training programme series was completed in the third quarter of 2021, supported by the Reindustrialisation and Technology Training Programme (RTTP) of the Vocational Training Council. The training series equipped the participating eyewear designers with the necessary skills for them to keep up with new market trends and support the industry to go through revolutionary changes under the "new normal".

HKPC looks forward to continuing its longstanding partnership with HKOMA to support and promote the vibrant development of the Hong Kong eyewear industry. We also wish HKOMA continued success in its endeavours to provide practical assistance to industry players and propel industry development to a new phase.

賀辭

畢堅文 MH

香港生產力促進局 總裁

香港是全球第三大眼鏡和眼鏡框出口地，一直以追求創新設計、先進製造技術及採用環保材料聞名於世。

香港中華眼鏡製造廠商會（廠商會）是這些成就背後的驅動力。廠商會在業界追求卓越的目標扮演至重要角色，讓「香港製造」品牌在全球新型冠狀病毒疫情尚未稍息的情況下，仍然能夠在國際舞台脫穎而出。自2021年1月至今，香港眼鏡出口總值達140億港元，較2020年同期增長28%，絕對值得引以為傲。

我代表香港生產力促進局（生產力局）衷心祝賀廠商會成立四十周年，加強香港眼鏡工業的競爭能力。多年來生產力局與廠商會合作無間，推出不同項目促進業界升級轉型，實現業務可持續發展，以迎接各種挑戰及機遇。近期合作包括獲「工貿組織支援基金」支持的「香港眼鏡好設計」項目，透過舉辦展覽、研討會及業務配對，加強香港眼鏡設計在一帶一路國家的市場地位。除了這個在2021年五月完結的項目外，在職業訓練局的「再工業化及科技培訓計劃」支持下，我們在2021年第三季完成「3D眼鏡設計及建模課程」培訓系列，成功讓參與的眼鏡設計師掌握必須技術，跟上新市場趨勢，支援業界在「新常態」下革新。

生產力局期望與廠商會延續長期合作關係，支持及推動香港眼鏡業界蓬勃發展。祝願　貴會繼續屢創佳績，為業界提供切實支援，推動眼鏡業發展進入新階段。

Congratulatory Message

Dr Sunny Chai

Chairman, Federation of Hong Kong Industries

Hong Kong as one of the major exporters of spectacles and frames in the world, the local optical industry plays a crucial role in the context of design, innovation and technology as well as quality control in the international arena. With the aim to enhance products' competitiveness, Hong Kong manufacturers not only strive to develop their own brand products and original design, but also add value to the products by integrating new technology as well as eco-friendly and sustainable elements.

In a long-term partnership with the Hong Kong Optical Manufacturers Association (HKOMA), Federation of Hong Kong Industries (FHKI) will continue to work closely with HKOMA to enhance the design and quality of eyewear products in Hong Kong.

FHKI firmly believes that the Hong Kong optical industry will reach greater heights in the local and international markets. We wish HKOMA every success in the years ahead.

香港工業總會
FHKI Federation of Hong Kong Industries

賀辭

查毅超 博士

香港工業總會 主席

香港作為全球主要的眼鏡及眼鏡框出口地之一，本港眼鏡業無論在設計、創新技術以及品質管理方面一直在國際舞台上擔當重要角色。為提升產品競爭力，香港廠商不僅致力開發自家品牌及原創設計，同時亦研發新技術以及融入環保和可持續發展的元素，為產品增添價值。

作為香港中華眼鏡製造廠商會的長期合作伙伴，香港工業總會 (工總) 將繼續與香港中華眼鏡製造廠商會緊密合作，攜手協助業界提升本港眼鏡的設計水平和產品質素。

工總衷心祝賀香港中華眼鏡製造商會再創輝煌佳績，推動香港眼鏡業蓬勃發展!

I am delighted to extend my warmest congratulations to the Hong Kong Optical Manufacturers Association (HKOMA) on its auspicious 40th anniversary.

Over the past four decades, HKOMA has contributed tremendously to the promotion of Hong Kong optical products worldwide and cooperation between manufacturers, as well as the advancement of the latest optical manufacturing technologies. As the leading optical manufacturers' association in Hong Kong, HKOMA endeavours to support and inspire its members and the industry in response to the emerging opportunities and challenges. Leveraging Hong Kong's strategic location at the heart of Asia, HKOMA has been successful in weaving an increasingly effective global network to explore and develop new markets.

I look forward to witnessing the continued growth of HKOMA along its trajectory of excellence and scale new height in the years ahead. I wish HKOMA every success in its future endeavours.

HKOMA 40 SINCE 1982

22nd November 2021

Hong Kong Optical Manufacturers Association, Ltd
2/F, 11 Fa Yuen Street
Mongkok, Kowloon, Hong Kong

Dear Sir/Madam,

Re: Congratulation message for the HKOMA 40th Anniversary Celebration

I am honoured to extend our warmest congratulations to the Hong Kong Manufacturers Association (HKOMA) on 40 years of service and it's great contribution to the Society.

The HKOMA has been a prominent leader in the optical industry in Hong Kong since its incorporation in 1982. It has significantly contributed to the development and promotion of Hong Kong local brands and has been actively involved in community services by linking business partners with other stakeholders to provide optical support and services to needy people in the community. For example, upon receiving our enquiry about the possibility of sponsorship of glasses for Hong Kong local preschool children living in the underprivileged districts, the HKOMA responded promptly and helped line up resources to support our work in promoting the health and development of disadvantaged young children. In this special occasion, we would like once again to express our most sincere gratitude and appreciation for their great support to our work.

It requires vision, drive for excellence and strong support from the profession to establish and sustain the impactful work and services for decades. On this joyous occasion of the 40th anniversary celebration of the HKOMA, I wish the future HKOMA every success in its endeavours in the years ahead.

Yours sincerely,

PATRICK IP

I wish to convey my warmest congratulations to the Hong Kong Optical Manufacturers Association on the occasion of its 40th anniversary!

Hong Kong Optical Manufacturers Association has been a close partner of Hong Kong Design Institute. We are thankful to the association in providing ample learning opportunities to our students including visits, career talks, seminars, design competitions and scholarships, for students to be updated with industry development and skills from the professionals. We value the partnership and believe that HKOMA will continue to play an important role in leading the global eyewear industry in this region and in the international arena.

On this special occasion, we wish the association many more years of unparalleled success. Congratulations and Happy Anniversary !

使命與目標
Mission & Objectives

香港中華眼鏡製造廠商會有限公司
於一九八二年根據香港法例成立，立會宗旨如下

宣揚香港眼鏡製造業及其附屬產品，開拓海外新市場

引入先進科技及促進同業互相合作精神和共同利益

本會為貫徹執行使命，輔助本業發展及對會員業務作實質性襄助，其歷屆執行委員會的工作均以加強香港眼鏡工業在國際市場的競爭能力為目標。

Established by ordinance in 1982, the Hong Kong Optical Manufacturers Association Limited (HKOMA) is tasked:

To promote Hong Kong optical manufacturing and related products, and to open new market overseas.

To bring in advance and latest technologies, to foster co-operation between manufacturers in this same field, and to work close together to their mutual benefit.

In order to carry on the mission of HKOMA as well as to provide practical and valuable assistance to our associates and the industry, the association plays an active role in enhancing the strengths of the industry's global competitiveness.

Mr. Lam Yin Sang
Co-Founder of
Hong Kong Optical Manufacturers Association

作為眼鏡業界的成員及香港眼鏡商會的創始會員，十分榮幸在此祝賀　香港中華眼鏡製造廠商會成立四十周年。

隨著疫情及全球化的影響，全球都有翻天覆地轉變，眼鏡業界也有很大的變化。技術的創新提升了整個行業的生產能力，也促使我們與消費者之間的有更緊密的互動。在這訊息萬變的大時代，香港企業家創新及追求卓越的精神及初心，絲毫沒有改變。此香港精神促使香港眼鏡業界的蓬勃發展，在市場上創造出很多嶄新的設計及產品，並使香港成為全球眼鏡業界重要的一員。

本人想藉此機會感謝香港中華眼鏡製造廠商會對業界的支持，並在此鼓勵更多香港企業一起為行業的未來創造無限的創新及夢想！

As a passionate entrepreneur of the eyewear industry and one of the founding members of the HKOMA, it is my honor to congratulate HKOMA on its 40th anniversary.

The world has changed a lot, and the industry has changed dramatically over the years. Technology has changed how we interact with shoppers and how we produce products. One thing that never changes is the Hong Kong spirit! As Hong Kong continues to thrive to become an essential part of the eyewear industry, companies and entrepreneurs continue to innovate and create new designs for the world market.

I want to take this opportunity to encourage more Hong Kong companies to be bold and dream big for the future of our industry! Keep up the spirit. Keep up the great work!

Hong Kong Optical Manufacturers Association 40th Anniversary Celebration

Convergence expert for future

Mr. Michael Ng,
Chairman, Arts Optical
Permanent Honorary President, Hong Kong Optical Manufacturers Association (HKOMA)

Message from

Otis, Ku Ngai Yung

Honorary President of Hong Kong Optical Manufacturers Association
香港中華眼鏡製造廠商會 榮譽會長 **顧毅勇**

The Hong Kong Optical Manufacturers Association (HKOMA) was incorporated on 27 August 1982. The Annual Directory Issue marks the celebration of the association's 40th anniversary. As the current honour president of the Hong Kong Optical Manufacturers Association, it is my honour to share with you the current situation of the optical industry after the serious impact of the epidemic and a vision of a brighter future.

Over the past year or so, Hong Kong's economy and the daily lives of the general public have been seriously affected by the Covid-19 outbreak. However, through the concerted efforts of the Hong Kong SAR government, medical personnel and the general public, the epidemic has shown significant improvement and the economy is on the road to recovery.

According to the Hong Kong Trade Statistics published by the Hong Kong Census and Statistics Department, Hong Kong was the third largest exporter of eyewear and eyewear frames in the world after Mainland China and Italy in 2019. Due to the impact of the Covid-19 epidemic, the total value of Hong Kong's exports of eyeglasses, lenses and eyeglass frames fell by 22% (HK$16 billion) year-on-year in 2020. Fortunately, the situation has stabilised. From January to September 2021, the total value of Hong Kong's eyewear exports rose compared to the same period in 2020, increasing by 28% (HK$14 billion).

The Covid-19 outbreak affected supply and demand in the eyewear industry seriously, and Hong Kong exporters' original manufacturing business was greatly disrupted. As the number of orders from Western buyers dropped significantly due to the epidemic, while at the same time, consumers showed more willingness to spend on lenses, Hong Kong businesses were inclined to invest more resources in the Research & Development of functional designs and the creation of their own brands.

The epidemic will eventually pass and people's daily lives will return to normal. Eyewear industry players should use this lull in the storm to focus on design improvement and develop post-epidemic sales strategies. We will continue to maintain close communication and cooperation with the Hong Kong SAR Government and Hong Kong Trade Development Council (HKTDC) in order to obtain more favourable support for our members.

Lastly, I wish you all good health and prosperous business!

香港中華眼鏡製造廠商會於一九八二年八月二十七日註冊成立，今期會刊標誌著本會成立四十周年誌慶紀念。本人深感榮幸，能以香港中華眼鏡製造廠商會現任榮譽會長的身份，借此充滿紀念性的時刻，與大家分享受疫情衝擊後的行業現況，以及對未來的願景。

回顧近一年多以來，香港的經濟及大眾的日常生活，都被新冠病毒疫情所影響。但經香港特區政府、醫護人員及市民大眾的共同努力之下，疫情已有明顯好轉，經濟亦出現復甦跡象。

根據政府統計處出版的《香港貿易統計》2019年數據，反映出香港是全球第三大眼鏡及眼鏡框架出口地，僅次於中國內地及意大利。因受新冠疫情的影響，於2020年，香港的眼鏡、鏡片及眼鏡框架出口總值按年下跌22%（即160億港元）。幸而隨著疫情轉趨穩定，2021年1至9月，香港的眼鏡出口總值升幅與2020年同期相比，增幅達28%（即140億港元）。

受新冠病毒疫情影響，眼鏡業內的供需狀況受到較大的影響，香港出口商的原件製造業務更是大受干擾。由於西方買家的訂單數量因疫情影響而大幅下降，但同時消費者願意投放在鏡片上的費用則逐漸提升，香港商家更傾向於投入更多資源在研發功能性設計及創立自家品牌之上。

疫情終會過去，市民的日常生活都將會回歸正常。各位眼鏡業界的同仁應趁疫情間，著力於提升設計之上，努力制定疫情後的銷售策略。本會將會繼續與特區政府工商部門及香港貿發局維持緊密的溝通和合作關係，為各位同仁爭取更多有利的支援。

最後，謹祝

各位同仁身體健康，業務蒸蒸日上！

HONG KONG EYEWEAR DESIGNER CLUB
Affiliated to HONG KONG OPTICAL MANUFACTURERS ASSOCIATION

香港中華眼鏡製造廠商會 附會

香港眼鏡設計師業會

The Hong Kong Eyewear Designer Club was established after a resolution made by the Executive Committee meeting of Hong Kong Optical Manufacturers Association (HKOMA) in September 2016. The objectives of the Club are to provide a networking platform for those who are interested in eyewear product design for sharing common ideas, and to work close together for enhancing the design strengths of the global competitiveness of the industry.

為提升香港眼鏡業之設計水平，「香港中華眼鏡製造廠商會」(下稱商會)議決成立一個集合對眼鏡產品設計具興趣的人士，共同交流及推動創新的附會。附會定名為 [香港眼鏡設計師業會]，並於2016年9月以[香港中華眼鏡製造廠商會有限公司]名下進行分會名稱登記，依法成立。

Vision Of The Club
(i) To unite and strengthen the contact of eyewear designers
(ii) To provide information on design concepts and eyewear design
(iii) To nurture the growth of designers

Target Members
(i) Designers of fashionable products no matter in the eyewear field or other industry
(ii) Winners of spectacles design competitions
(iii) Graduates of the design department of local universities and design colleges

Application for Membership
Interested individuals in design sectors are welcome to be the members of the Club. Please contact Hong Kong Optical Manufacturers Association by email: hkoma@biznetvigator.com for the details of the membership application.

業會願景
(i) 團結和加強眼鏡設計師的聯繫
(ii) 分享設計理念和眼鏡設計的資訊
(iii) 協助建立專業設計師的培育平台

目標會員
(i) 本業和其它行業時尚產品的設計從業員
(ii) 歷屆眼鏡設計比賽得獎者
(iii) 本地大學和專上學院設計系畢業生

入會申請
歡迎對眼鏡產品設計具的有關參加業會，有關入會申請，請郵件至hkoma@biznetvigator.com向「香港中華眼鏡製造廠商會」查詢。

ACTIVITIES REVIEW

The activities conducted by Hong Kong Optical Manufacturers Association (HKOMA) 21st Executive Committee in the year of 2020-2021 are listed as below: -

Production Upgrading

01/03/2018 – 29/02/2020 Promote "Better-Fit" Eyewear Design Build 3D Asian Head form Database

In order to let the optical industry grasp the concept and application of "Better-fit" and have a more in-depth statistical analysis of Asian faces, HKOMA joined hand with HKPC successfully applied the Hong Kong SAR Government's SME Fund of HKD1,458,816 in early 2018, to establish the Project, as well as to develop a targeted database and practical spectacles engineering design guidelines for the Hong Kong eyewear manufacturing industry.

The content of this project is includes:-

- 3D digital head form database (including adults and children), through statistical analysis of Asians different face types,
- Publication of Eyewear Engineering Design Guidebook of "Better-fit" standard specifications for designers and manufacturers' reference.
- Seminar of "Spectacle Engineering Design Guideline for "Better-fit" and CE Safety Compliance"

25/05/2020 Visit the Innospot Studio of Hong Kong 3D Printing Association

The Executive Committee of HKOMA arranged a visit to this studio through the HKPC to share the current status and technological development for the application of 3D printing to the spectacle production.

30/07/2020-15/10/2020 3D Software Eyewear Design Training Course

In order to cope with the development of 3D product printing and 5G telecommunications technology, the Hong Kong Productivity Council and HKOMA have successfully applied for the Hong Kong Special Administrative Region Government's re-industrial and technology training program funding to establish this course.

The course content covers the professional field of 3D software eyewear design, a total of 16 hours divided into 8 sessions on Thursday evening from July 30 to October 15 in 2020. Twelve students from 11 nos. of eyewear manufacturing company participated.

26/04/2021 HKOMA Study Mission to Optical Adaptive lens production line in Hong Kong

The Executive Committee of HKOMA visited our associate member (AS0012) - Wei Luen Plastics Co., Ltd. on April 26, 2021 for a better understanding of developing an intelligent production line of the adaptive lens in Hong Kong. The production line was set up with the technical support of Hong Kong Productivity Council under the funding subsidy of Hong Kong Special Administrative Region Government.

活動回顧

香港中華眼鏡製造廠商會第二十一屆執行委員會在2020-2021年的會務工作概要如下:-

生產及技術

1/03/2018 -29/02/2020 香港特區政府中小企(SME)基金資助“推廣「Better-fit」眼鏡設計-建立亞洲人頭型數據庫”計劃

本會和生產力局為了讓眼鏡業界更掌握到 “Better-fit” 的概念和應用，和對亞洲人的面形有更深入統計分析，在2018年初獲香港特區政府的中小企(SME)基金成功批核資助HKD1,458,816建立 [Better-fit 眼鏡工程設計指引] 計劃，目的是為香港眼鏡業界自行開發一套具針對性的數據庫和實用的眼鏡工程設計指引。

是項計劃內容將包括:

- 建立一個3D人頭數據庫(包括成人及兒童)，透過對亞洲人不同臉型的進行統計分析
- 整合業界的經驗，製作一個眼鏡設計的工程法則指引，幫助業界建立一套標準規範
- 舉行眼鏡設計實用工作坊

25/05/2020 參觀 香港3D打印協會 Innospot工作室

本會執委會透過生產力局安排參觀此工作室，借此分享3D打印應用於眼鏡生產的現況和技術發展。

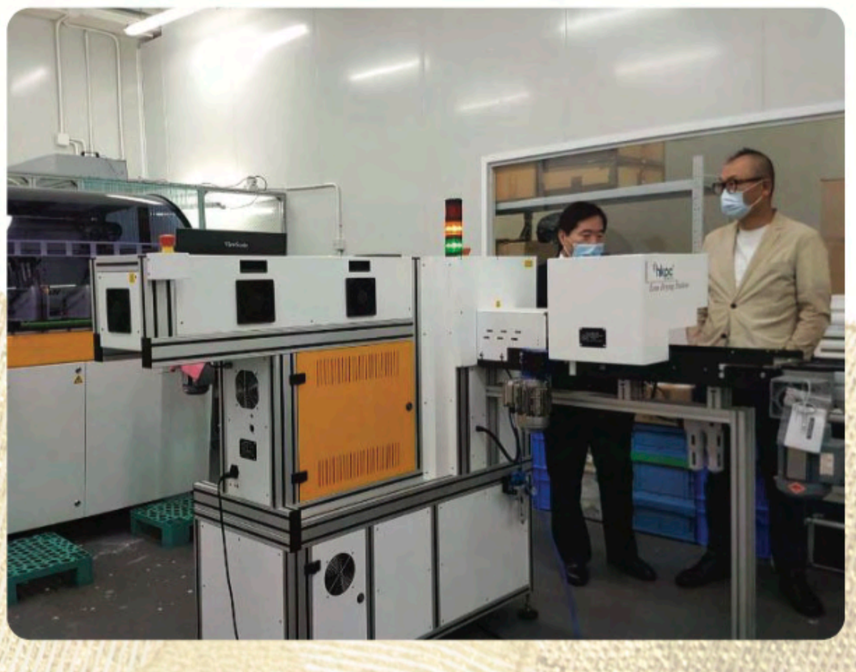
30/07/2020 -15/10/2020 香港特區政府再工業及科技培訓計劃 (RTTP) 3D軟件眼鏡設計培訓課程

生產力局和商會為了配合3D產品打印和5G電訊科技發展，未來3D產品設計要求必將普及化和發展趨向，成功申請到香港特區政府再工業及科技培訓計劃資助建立此項課程。

課程內容涵蓋3D軟件眼鏡設計的專業範疇，共16小時分8節，由本年7月30日至10月15日期間的星期四晚上透過Zoom線上2小時授課，共11間眼鏡廠商的12位學員參加。

26/04/2021 參觀本港光學自適鏡片生產線

商會執委會於2021年4月26日參觀聯繫會員 (AS0012)- 偉聯塑膠有限公司，實地考察及了解該司回港設立光學自適鏡片生產線的概要，而生產力局同時介紹該局在本港設立生產線的技術支援，和香港特區政府在此項目上的現金資助計劃。



ACTIVITIES REVIEW

The activities conducted by Hong Kong Optical Manufacturers Association (HKOMA) 21st Executive Committee in the year of 2020-2021 are listed as below: -

30/04/2021 3D Eyewear Design Webinar

A total of more than 20 peers from the eyewear industry joined the online seminar, sharing with HKPC consultants, 3D eyewear design experts, and 3D eyewear course students about the application status and future development trends of 3D design on the eyewear industry.

28/6/2021 Review on Regulations of Eyewear Products into EU/UK Market

HKOMA organized a webinar for the regulations of eyewear products into EU/UK market on June 28, 2021. The representatives of QIMA Testing (HK) Ltd, the speaker of the webinar explained the latest entry measures of eyewear products into the European Union market. 71 representatives from 37 companies participated the online sharing.

31/07/2021 "Better-Fit" Eyewear Design Build 3D Asian Headform

The result of this project, which was completed by HKOMA from March 2018 to mid-2020, won the Bronze Innovation Award by the Hong Kong Institute of Engineers on July 31, 2021.

23/09/2021 – 11/11/2021 3D Eyewear Design and Model Making Advanced Course

HKOMA and Hong Kong Productivity Council had successfully organized the 3D Software Eyewear Design Course in 2020. They joined hand again to co-organize the Eyewear 3D Design and Model Making Advanced Course in 2021. The course was held on every Thursday evening for 2 hours, from September 23 to November 11, 2021 with 12 lessons in total. Its content was focused on the skill of using Rhinoceros 3D to make 3D models of eyewear products on computer and how to use computer models to render simulation product renderings.

25/10/2021 HKPC International Conference on Smart Wearable Technology

HKOMA is one of supporting organizations of this event. The conference was taken place on 25 Oct. 2021 in Hong Kong Productivity Council. Mr. Evan Tse, the President of HKOMA was invited to join the VIPs group photo taking in the conference opening. For the optical issue of the conference, a topic of "Multi-aspect Application of Augmented Reality Smart Glasses" was presented by the representative of Digital Transformation Division, Seiko Epson Corp., Japan.

活動回顧

香港中華眼鏡製造廠商會第二十一屆執行委員會在2020-2021年的會務工作概要如下:-

30/04/2021 3D眼鏡設計網絡研討會

研討會共20多位眼鏡同業上線，生產力局顧問、3D眼鏡設計專家及3D眼鏡課程學員等分享 3D 眼鏡在業界的應用情況和未來發展方向。

28/6/2021 [眼鏡產品入關歐盟 /英國措施]網絡研討會

商會聯同香港生產力局於2021年6月28日下午舉行眼鏡產品入關歐洲(歐盟/英國)措施網絡闡釋會，向眼鏡廠商講解眼鏡產品入關歐盟的新措施，並由會員 QIMA Testing (HK) Ltd. 的公司代表上線專業講解，共37間公司的71位代表參加。

31/07/2021 “Better-fit Head form”項目成果榮獲香港工程師學會創意獎

商會在2018年3月至2020年中完成 “推廣「Better-fit」眼鏡設計 - 建立亞洲人頭型數據庫計劃”，項目成果在2021年7月31日獲 “香港工程師學會”頒發工業大獎2021的創意獎 - 銅獎。

23/09/2021 – 11/11/2021眼鏡3D設計與模型製作進階課程

商會聯同香港生產力局繼2020年成功舉辦[眼鏡3D設計與模型製作課程]，於2021年再度合辦[眼鏡3D設計與模型製作進階課程]。課程在 2021年9月23日至11月11日 期間每週逢星期四晚在 ZOOM 網絡2小時上課，課程名額12位，課程內容更集中於傳授應用 Rhinoceros 3D 製作眼鏡電腦3D模型的技巧，製作運動架及金架的技巧，及如何利用電腦模型渲染仿真產品效果圖。

25/10/2021 香港生產力促進局 “智能穿戴科技” 國際會議

商會是此項目的其一支持機構，會議於 2021年10月25日在香港生產力促進局舉行。商會會長謝小雁先生受邀參加會議開幕式的貴賓合影。會議內容在針對光學的範疇，由日本 Seiko Epson Corp 公司代表上線主講，題目是“增加智能眼鏡的多方面應用”。

ACTIVITIES REVIEW

The activities conducted by Hong Kong Optical Manufacturers Association (HKOMA) 21st Executive Committee in the year of 2020-2021 are listed as below: -

Marketing Promotion

01/02/2020 HKOMA Annual Directory (ISSUE 2020) Published and Webpage Updated

1,000 copies of the Association directory [HKOMA ISSUE 2020] were published for distribution worldwide during the year. In addition, HKOMA Web-site: http://www.hkoptical.org.hk was also updated based on the information of the new directory. It includes the information of (1) Association Profile, (2) Members Section, (3) Special Event, (4) Information Directory, (5) About HKOMA and (6) Product Catalogue.

01/05/2019 – 31/10/2020 Hong Kong Government funded Project - "To extend the reach in Belt and Road markets for Hong Kong Eyewear Industry"

To encourage creativity of the local eyewear design and to build up an unique image for the Hong Kong eyewear product in the Belt and Road markets, HKOMA successfully applied the Trade and Industrial Organization Support Fund (TSF) of HKSAR Government, subsidiary of HKD1,965,455 for the project.

The project was hosted by HKOMA and implemented by the Hong Kong Productivity Council (HKPC). In November 2019, the "Hong Kong Eyewear Good Design" exhibition program was launched in the Hong Kong International Optical Fair, showcasing 30 locally-designed eyewear products, and then set up a 100sqm Hong Kong Design Gallery in Moscow International Optical Fair, Russia in Feb. 2020.

The promotion of the "Hong Kong Eyewear Good Design" includes:-

1) To hold networking forum in the above exhibitions

2) Promotion at Facebook

3) Publication of E-Directory

4) Video Production of "Hong Kong Eyewear Good Design"

Public Relations / Social Services

04/2020 "Questionnaire on the COVID-19 Pandemic impact to the Hong Kong Optical Manufacturing Industry"

The COVID-19 Pandemic has spread globally since March 2020. Due to the suspension of overseas orders, business operations have been also affected. In order to be able to understand the industry situation in detail, HKOMA issued members a questionnaire in this matter. The collected information was reflected to the Hong Kong SAR Government, for the concerns and aspirations of the eyewear manufacturers.

17/04/2020 Webinar for HKSAR Government Aid Fund to Local SMEs

Under the situation of Pandemic outbreak, the Hong Kong Special Administrative Region Government has launched various funding schemes to assist local SMEs. HKOMA arranged an online talk, inviting the officers of the SME Funding Center and professionals from relevant funding application organizations to share the information and application guidelines of the funding schemes with the manufacturers.

活動回顧

香港中華眼鏡製造廠商會第二十一屆執行委員會在2020-2021年的會務工作概要如下:-

市場推廣

01/02/2020 香港中華眼鏡製造廠商會二零二零年會刊 出版及網頁更新

本會1,000套 [2020年會刊] 出版，於年內全球發行。此外亦更新本會網頁 www.hkoptical.org.hk 資料，內容包括:(1)本會組織 (2)會員資料 (3)特別項目 (4)本業資訊 (5)本會資料 及 (6)產品簡介等。

01/05/2019 -31/10/2020香港特區政府資助“加強卓越香港眼鏡設計在一帶一路國家的市場地位” 計劃

為鼓勵香港眼鏡設計業界的設計創意，推廣眼鏡業界及其設計到一帶一路的市場，並建立香港眼鏡業界的特有形象，本會成功申請香港特區政府 TSF(Trade and Industrial Organization Support Fund) 工商機構支援基金的資助HKD1,965,455。

由香港中華眼鏡製造廠商會主辦，香港生產力促進局協助執行，首先在2019年11月香港國際眼鏡展，推出「香港眼鏡好設計」展覽項目，選出30間本地自家設計的眼鏡產品參加，而有關之設計並再於2020年2月俄羅斯莫斯科國際眼鏡展中設館展覽展示。

而「香港眼鏡好設計」推廣項目，包括:-

1)在上述兩個展覽會舉辦交流工作坊

2)在面書Facebook 推廣

3)出版電子雜誌介紹E-Directory

4)拍攝一輯「香港眼鏡好設計」宣傳短片

同業交流

04 /2020《香港眼鏡製造業受新冠肺炎疫情疫情影響問卷》調查

新冠肺炎(COVID-19)疫情自2020年3月開始蔓延全球，因受海外訂單停頓，而導致企業營運亦有所影響。商會為能夠具體了解行業狀況，特別向會員發上本業現況調查問卷，將收集到的資料，向特區政府反映香港眼鏡製造業界的訴求。

17/4 /2020 [香港特區政府援助本地中小企基金]網上集思會

在疫情下。香港特區政府推出的各種援助本地中小企業的資助計劃。商會特別安排網上集思會。邀請特區政府中小企資援中心的主任和有關資助申請機構的專業人士參加與業界分享和講解資助內容和申請規則。共25間香港眼鏡廠商代表參與。

ACTIVITIES REVIEW

The activities conducted by Hong Kong Optical Manufacturers Association (HKOMA) 21st Executive Committee in the year of 2020-2021 are listed as below: -

08/06/2020 Seminar for HKSAR Government Aid Fund to Local SMEs Fund

HKOMA and Hong Kong Productivity Council co-held a seminar on June 8, 2020, to introduce the latest preferential measures and subsidies of various SME funding support programs to the industry. More than 30 member representatives participated.

12/10/2020 HKOMA 21st Executive Committee (2018/2020) Annual General Meeting

The HKOMA 21st Executive Committee annual general meeting and its new Executive Committee election were originally scheduled to be held in August 2020. Due to the impact of the pandemic outbreak, this event was postponed to 12th October at 6pm online. It was decided in the agenda of the meeting that the HKOMA next (22nd) executive committee election was postponed to 2021 August, by the approval of 36 participating members.

09/08/2021 HKOMA 21st Executive Committee (2018/2021) Special General Meeting in conjunction with the 22nd (2021/2023) Executive Committee Election

The meeting was successfully held on August 9 evening, 2021 at the Club One in Hong Kong Whampao district, in conjunction with the election of 22nd Executive Committee. Totally 41 members attended.

08/11/2021 HKOMA 22nd New Executive Committee Inauguration Gala Dinner

The inauguration ceremony of HKOMA 22nd Executive Committee was held on November 8, 2021 in the Centenary Room of Marco Polo Hong Kong Hotel. The Oath of Inauguration was officiated by the Chairman of Hong Kong Productivity Council, Mr. Willy Lin, GBS, JP. Totally 156 members and counterparts attended the dinner, including 15 VIP guests from 9 local cooperative organizations.

11/11/2021 HKTDC 19th Hong Kong International Optometry Conference

HKOMA is one of the supporting organizations for the Conference. The conference was held on November 11, 2021 at the Hong Kong Convention and Exhibition Center. Mr. Evan Tse, President of HKOMA, accepted the invitation as one of the officiating guests at the opening ceremony of the Conference.

06/12/2021 Internet Sharing Session on the Status of Hong Kong Eyewear Manufacturers' Products into the U.S. Market

HKOMA held the first online information sharing and exchange session in its committee monthly meeting, Mr. David Friedfeld, President of CLEAR VISION OPTICAL U.S. was invited as the speaker of the online talk. The topic was Hong Kong eyewear manufacturers' products export to the US market current status. A total of 31 members participated the online session.

活動回顧

香港中華眼鏡製造廠商會第二十一屆執行委員會在2020-2021年的會務工作概要如下:-

8/06/2020 香港特區政府援助本地中小企基金研討會

商會與香港生產力局在2020年6月8日於該局舉行題述研討會，向業界介紹各項中小企基金支援計劃的最新優惠措施及資助。共30多位會員代表參與。

12/10/2020 HKOMA第21屆執委會(2018/2020)會員大會

商會本屆執委會會員大會暨下屆執委會選舉原訂在2020年8月內舉行，因受新冠肺炎疫情集會限聚措施的影響，是次會員大會暨新屆選舉，推延至同年10月12日晚上六時線上舉行，並在大會議程中議決商會下屆(第22屆)執行委員會選舉延至2021年8月份內舉行，獲與會36位會員和議通過。

09/08 /2021 HKOMA第21屆執委會 (2018 / 2021)特別會員大會 暨 第22屆 (2021/2023) 執委會選舉

商會是次特別會員大會暨下屆(第22屆執行委員會)選舉於2020年8月9日晚上在黃埔博藝會舉行，共41位會員代表出席。

08/11/2021 HKOMA新屆執委會就職禮晚宴

商會第22屆執委會(2021-2023)就職禮晚宴於2021年11月8日在尖沙咀香港馬可孛羅酒店百年廳舉行。就職禮由香港生產力局主席林宣武太平紳士主禮監誓。156位同業友好出席晚會，其中9間商會合作機構共15位代表光臨。

11/11/2021 貿發局第19屆香港國際視光會議

商會是此項目的其一支持機構，會議於2021年11月11日在香港會議及展覽中心舉行。商會會長謝小雁先生接受邀請為會議開幕式的其一主禮貴賓。

06/12/2021 眼鏡產品入口美國市場現況網絡分享會

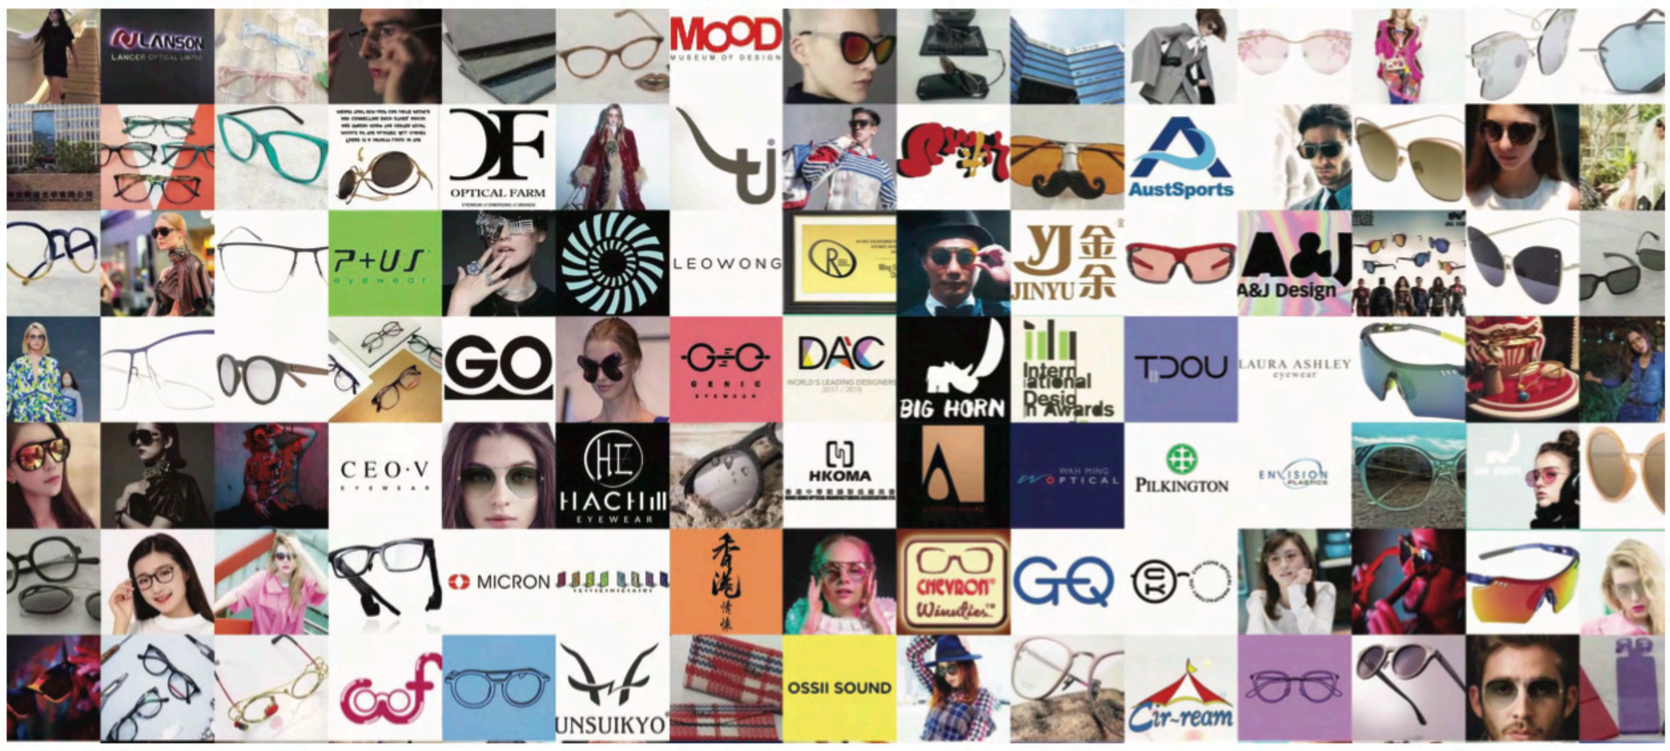
商會在月會首次舉行線上資訊分享交流會，邀請到 Mr. David Friedfeld, President CLEAR VISION OPTICAL U.S. 上線與大家分享有關眼鏡產品入口美國市場現況，共31位會員代表參加。

香港眼鏡好設計
Hong Kong Eyewear Good Design

To extend the reach in Belt and Road markets for Hong Kong Eyewear industry

Hong Kong is a talented city in design and creativity. It is such a pleasure to promote our local extraordinary and superior design to the other countries, and eyewear design is one of the great segments in the industry. With the funding support from the Trade and Industrial Organisation Support Fund of the Trade and Industry Department, Hong Kong Optical Manufacturers Association collaborates with Hong Kong Productivity Council to organise the project, "Hong Kong Eyewear Good Design". It aims to encourage creative Hong Kong eyewear designs and promoting Hong Kong eyewear companies to the Belt and Road markets, which is one the biggest market segment in recent years. Creativity, innovation and marketability are the core values among these Hong Kong eyewear product designs, and they definitely can help clients better meet their desired market demand.

The "Hong Kong Eyewear Good Design" recruited myriads of outstanding Hong Kong eyewear design and showcased in two eyewear design exhibitions, “Hong Kong International Optical Fair 2019” and “Moscow International Optical Fair 2020”, which are excellent platforms to promote our excellent designs in eyewear and explode new opportunity in the Belt and Road markets.



Meanwhile, design forums were organized to provide a platform for outstanding Hong Kong designers to share their market insights and HK strengths. We were honoured to have Mr. Kenny Kwok, CEO of Kelfred Holdings Limited and Mr. Vincent Lee, AustSports Chief Brand Officer, Arts Group as the keynote speakers in the first forum in Hong Kong International Optical Fair to deliver a speech in the theme of “Global Perspectives and Innovation - Hong Kong Eyewear Good Design”. The sharing attracted tons of audiences successfully and received very enthusiastic responses.

Additionally, it is necessary to highlight Hong Kong Eyewear Industry’s achievements among the aspects of create design, advance manufacturing, innovative materials, successful brands, etc. Promotional materials such as a promotion video, an e-book design, a microsite and social media platform were also produced in this case.

Unfortunately, even though we well prepared for promotion and planned to join “SILMO Bangkok 2020”, it had been cancelled due to the rigorous spread of covid-19. Hopefully the plague will be gone soon so that we can revisit the Belt and Road markets once again.

香港眼鏡好設計
Hong Kong Eyewear Good Design

加強卓越香港眼鏡設計在一帶一路國家的市場地位香港眼鏡設計

香港是一座在設計和創意方面才華橫溢的城市。很興幸有機會將我們本土非凡的卓越設計推廣到其他國家，而眼鏡設計是設計行業的重要領域之一。在工業貿易署的「工貿組織支援基金」的資助下，香港眼鏡廠商會與香港生產力促進局合作舉辦「香港眼鏡好設計」計劃。它旨在鼓勵創意香港眼鏡設計，並推動香港眼鏡公司進入近年來其中最大市場之一的一帶一路市場。創意、創新和適銷性是這些香港眼鏡產品設計的核心價值，它們絕對可以幫助客戶更好地滿足一帶一路市場期望的需求。

「香港眼鏡好設計」匯聚了無數優秀的香港眼鏡設計，並分別於「香港國際眼鏡展2019」及「MIOF俄羅斯國際眼鏡展2020」兩個眼鏡設計展覽中亮相。以方雙上皆是優秀的平台來推廣我們在眼鏡領域的優秀設計，並在一帶一路市場上開闢新的機遇。

同時我們亦舉辦了設計論壇，為優秀的香港設計師提供一個分享市場洞察力和香港優勢的平台。我們很榮幸邀請到恒發光學行政總裁郭君宇先生和雅視光學 AustSports 首席品牌官李志文先生以「環球眼鏡新視角 – 香港眼鏡好設計」為題向與會者分享他們的設計理念和品牌故事。分享反應熱烈並成功吸引了大量觀眾。

為了突出香港眼鏡業在創意設計、先進製造、創新材料、成功品牌等方面的成就，我們亦製作了宣傳影片、電子書、微型網站及社交媒體平台等宣傳平台。

很遺憾，儘管我們做好了充分的準備計劃參加「SILMO曼谷眼鏡展2020」，但由於新冠病毒的原因而被取消。最後希望疫症可早日過去，讓我們再次來臨“一帶一路”市場。

Several events to enhance Hong Kong Eyewear industry

Apart from the above projects, we also organized several events in 2021 as supplement mission to further enhance Hong Kong eyewear industry.

Due to continuous update on regulations, with the arrangement by Hong Kong Productivity Council, we organized a webinar on the topic of the European Union and the British regulations for eyewear products, such as the update on the new MDR (Medical Device Regulation) EU 2017/745 issued on 26th May, 2021 and how do the industry react to those continuously changing regulations. We sincerely invited Ms. Davio Tsang, eyewear technical consultant, global technical services from QIMA and Mr. Eddy Lam, consultant from Hong Kong Productivity Council to provide fruitful speaking on the topic above.

Additionally, 3D technology is one of the cutting edge implementation direction for manufacturers. In this view, with the cooperation by Hong Kong Productivity Council once again, we invited Mr. Edmond Wong, Founder of ITUM and the trainee of 3D Eyewear Modelling Course for sharing on 30th Apr, 2021. During the webinar, we believed that the use of 3D design technology can improve the customer's experience and it will become more popular with the promotion and improvement of 3D technology and 5G application.

Last but not least, we sincerely gratitude to Wai Luen Plastic Company Limited and Hong Kong Productivity Council for the site visit in a local optical adaptive lens production line at 26th Apr, 2021. Our eyewear manufacturers have a better understanding of developing an intelligent production line in Hong Kong.

多項活動提升香港眼鏡業

除上述項目外，我們亦於2021年舉辦多項活動，以進一步提升香港眼鏡業。

基於安規不斷更新，在生產力局的安排下，我們舉辦了一場以歐盟和英國眼鏡產品安規為主題的網絡研討會，內容講述歐盟最新的MDR（醫療器械法規）2017/745於2021年5月26日發布的更新，以及行業如何應對這些不斷變化的安規。 我們誠摯邀請QIMA全球技術服務眼鏡技術顧問曾玉燕女士和香港生產力促進局顧問就上述主題進行分享。

此外，3D 技術亦是製造商的發展方向之一。有鑑於此，HKOMA與生產力局的合作，於 2021 年 4 月 30 日邀請了 ITUM 創始人 Edmond Wong 先生和眼鏡3D設計與模型製作課程學員進行分享。會上大家認為透過使用3D 設計技術可提高客戶核對樣辦的體驗，而未來發展方向是隨著 3D 技術的提升和改善，配合5G 通訊應用，3D 技術將更普及化，亦將是未來生產科技的基本。

最後，衷心感謝偉聯塑膠有限公司和生產力局於2021年4月31日的熱情款待和專業介紹，通過這次訪問，讓眼鏡製造商了解偉聯在本地開發及建立智能生產線，專門製造光學自適鏡片。

3D Eyewear Modelling Course

With the rapid development in 3D technologies, it is widely adopted in eyewear design to incorporate customizability into their products and the technology has been gaining more traction and popularity among the eyewear industry. To equip for this new design and manufacturing trend, it is essential for designers to be equipped with 3D CAD designing and modelling capabilities.

Thereby, the 3D Eyewear Modelling Course series is designed to equip designers with professional 3D eyewear design and modelling in order to help designers be ready for the next revolution in the eyewear industry. With the support from Reindustrialization and Technology Training Programme from Vocational Training Council, Hong Kong Optical Manufacturers Association collaborates with Hong Kong Productivity Council to organize the two online courses via zoom, “Introduction to Eyewear 3D Design and Modelling Course” in 2020 and the advance version “Eyewear 3D Design and Modelling Course” in 2021. Thanks to the overwhelming response, the two courses were held successfully.

After this course, participants were able to transform 2D sketches to 3D model in Rhinoceros 3D software, prepare digital files for 3D prototyping and photorealistic rendering in Keyshot, 3D printing file and mechanical drawing for manufacturing, specific eyewear design such as sunglasses, sportswear and metallic frame eyewear designs and modelling with organic 3D surface and decorative elements.

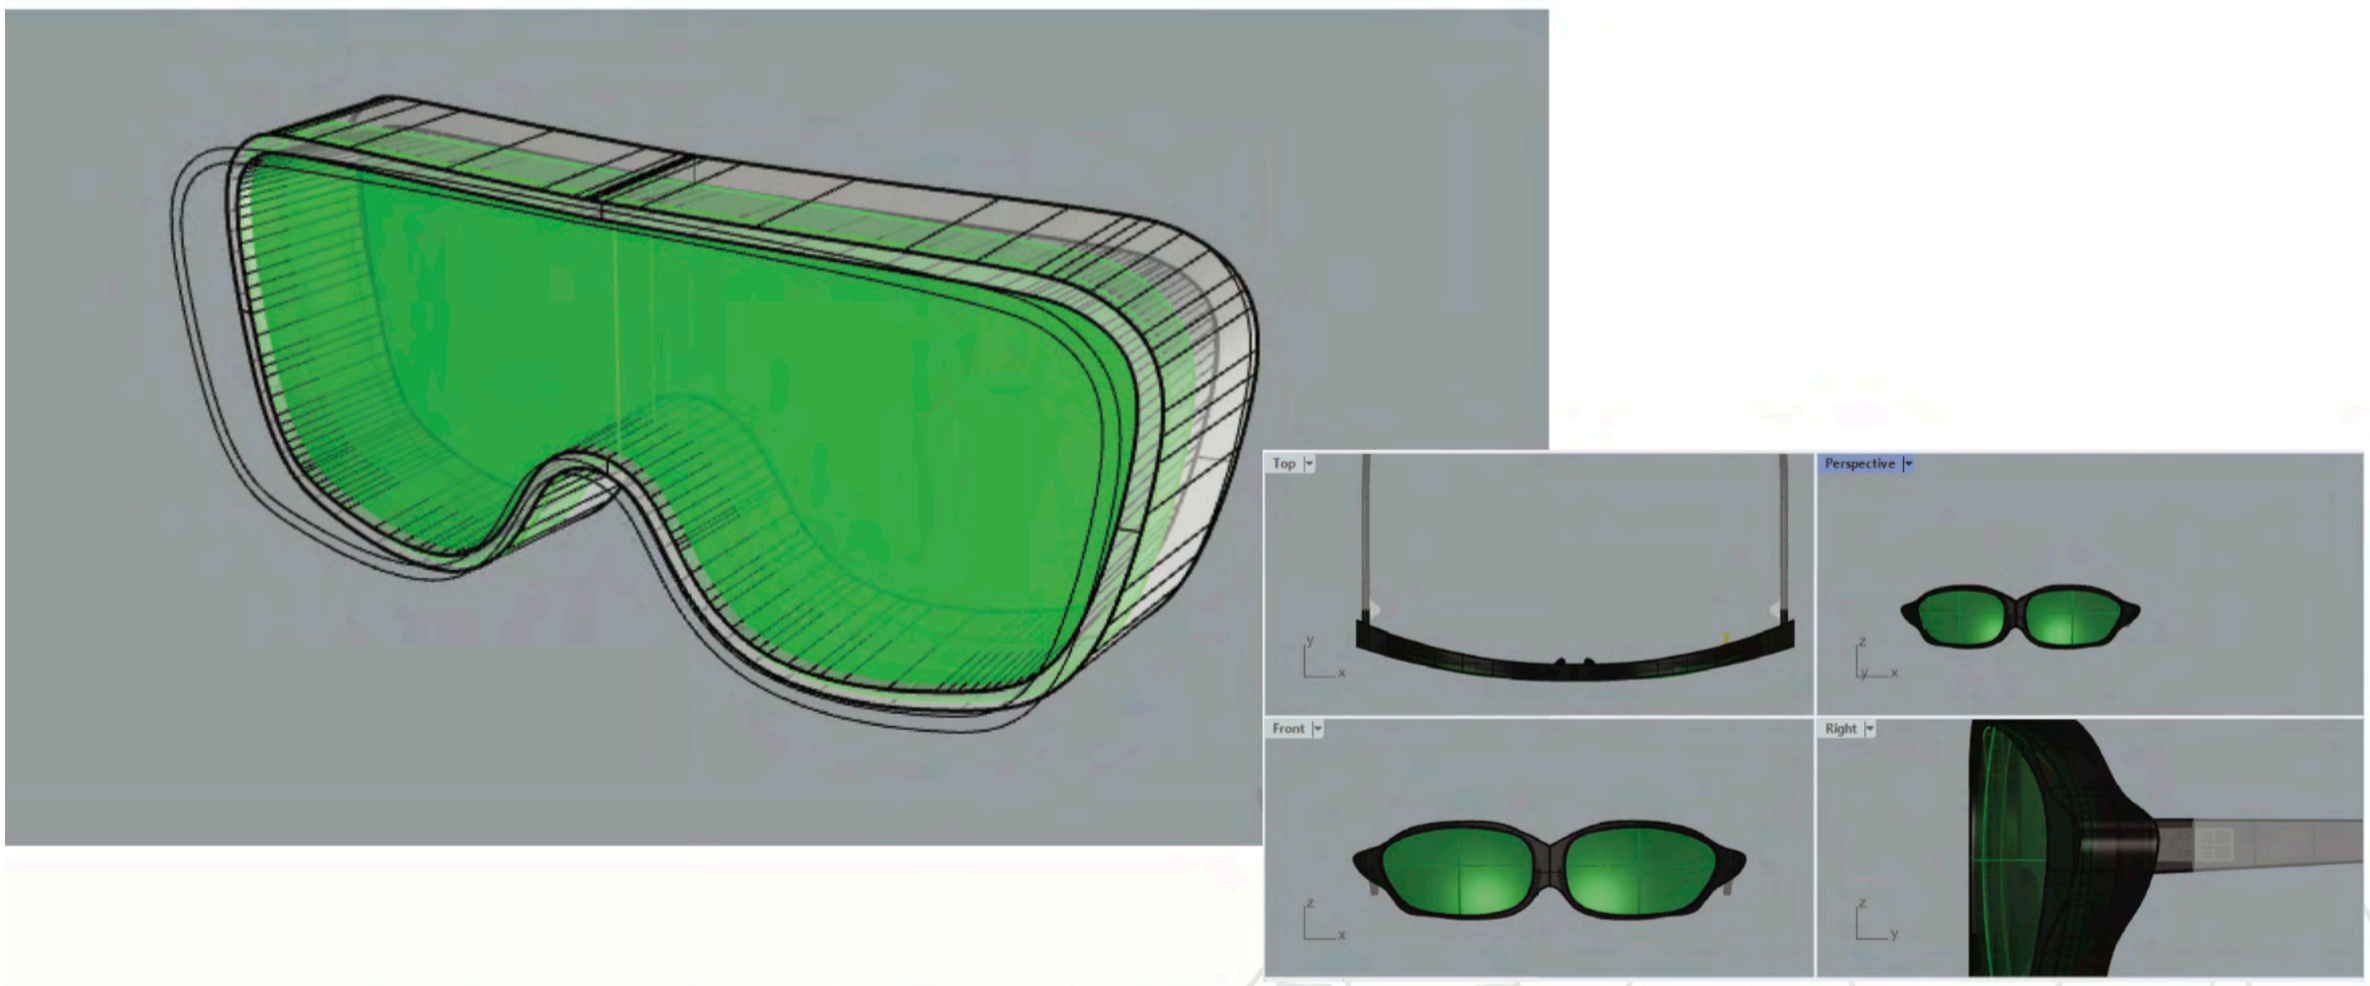
眼鏡3D設計及模型製作訓練課程



隨著 3D 技術的快速發展，客製化已被廣泛採用並融入其在眼鏡設計中產品當中，而這技術在眼鏡行業中越來越受到關注和普及。為了適應這種新的設計和製造趨勢，眼鏡設計師必須具備 3D CAD 設計和建模能力。

因此，我們舉辦了3D眼鏡建模課程系列，旨在為設計師提供專業的3D眼鏡設計和建模教學，以幫助設計師為眼鏡行業的下一次革命做好準備。在職業訓練局再工業化及科技培訓計劃的支持下，香港眼鏡廠商會與香港生產力促進局合作，分別先後於2020年及2021年線上舉辦了「眼鏡3D設計及模型製作入門課程」及進階版「眼鏡3D設計及模型製作訓練課程」。在學員們的熱烈的回響下，兩次課程皆成功舉辦。

完成本課程系列後，學員們能夠透過使用 Rhinoceros 3D 軟件將 2D 草圖轉換為 3D 模型、準備用於 3D 原型製作的檔案、在 Keyshot 軟件上準備逼真渲染的繪製模型、適用於生產的 3D 打印文件及機械繪圖、特定眼鏡設計例如太陽眼鏡、運動眼鏡和金屬框眼鏡、具有有機 3D 表面以及具有裝飾的眼鏡設計和建模。

爲什麼選擇玻璃偏光鏡片?

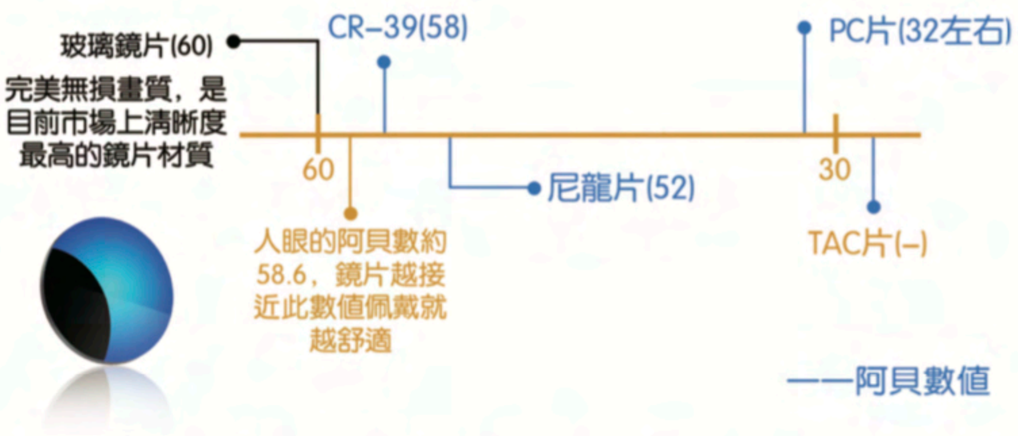
Why choose Glass Polarized Lenses?

Glass has long been the ideal material for ophthalmic and sunglass lens production because of its high resistance to scratching and aging. No other material can be worked to such precise tolerances and no other lens stands up so well to everyday use. Its many advantages include:

長久以來，玻璃被視為光學及太陽鏡片生產最理想的材料。由於玻璃具備極高之抗劃傷性及耐老化性，其他鏡片物料跟本不能做到如此精確的公差。亦沒有任何其他鏡片能像玻璃鏡片更適合日常使用，玻璃鏡片的優點包括：

***** Highest Abbe Value** – Compared to other lens materials such as CR39 (abbe 58), Nylon (abbe 52), PC (abbe 32), Optical Glass possess the highest abbe value : 60 ensure the highest clarity and no chromatic aberration.

比較其他镜片物料如 CR39, 尼龍和PC，玻璃鏡片擁有最高的亞貝數值：60 保證清晰，沒有色散的疑慮。



***** Superior and Consistant Optics** – glass lenses are manufactured through a series of grinding and polishing services fostering the highest quality and stable optics.

玻璃鏡片經過精密研磨及抛光工序，穩定及高質量的光學性能。

***** Maximum Transparency + Natural Vision**

– Clear glass provides the highest transmittance

視覺清晰自然，最高的透光率。

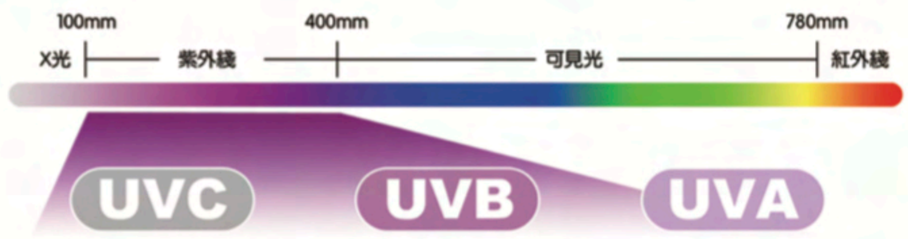
***** 100% Protection from Ultra Violet Rays,** Glare free –

UV A – 100% cut UV B – 100% cut UV C – 100% cut

100%抗紫外光，減輕疲勞。

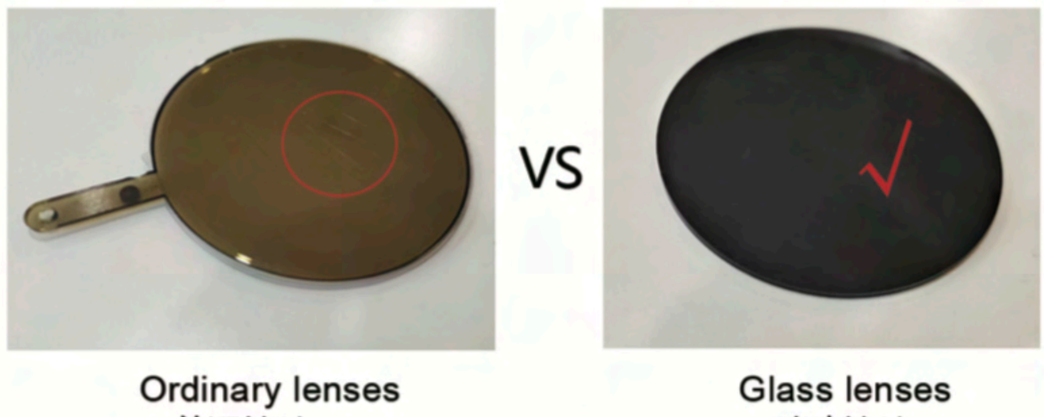
Glass polarized lenses are the best choice for protection against harmful UV rays and blue light, in addition to its Anti glare properties – best for driving, fishing and outdoor activities.

玻璃偏光鏡片能保護及防止有害的紫外綫和藍光伤害眼睛，並附帶防弦光的效用。是戶外活動如釣魚及駕駛的最佳之選。



***** Unsurpassed Resistance to Scratch** – unlike plastic lenses which can easily scratch, glass lenses are perfect in terms of scratch resistance.

玻璃鏡片是經過鋼化處理，與容易刮傷的塑膠鏡的抗磨效果無與倫比。



Ordinary lenses 普通鏡片

Glass lenses 玻璃鏡片

思樂特眞彩玻璃偏光系列

DISCOVER THE TRUE COLORFUL WORLD

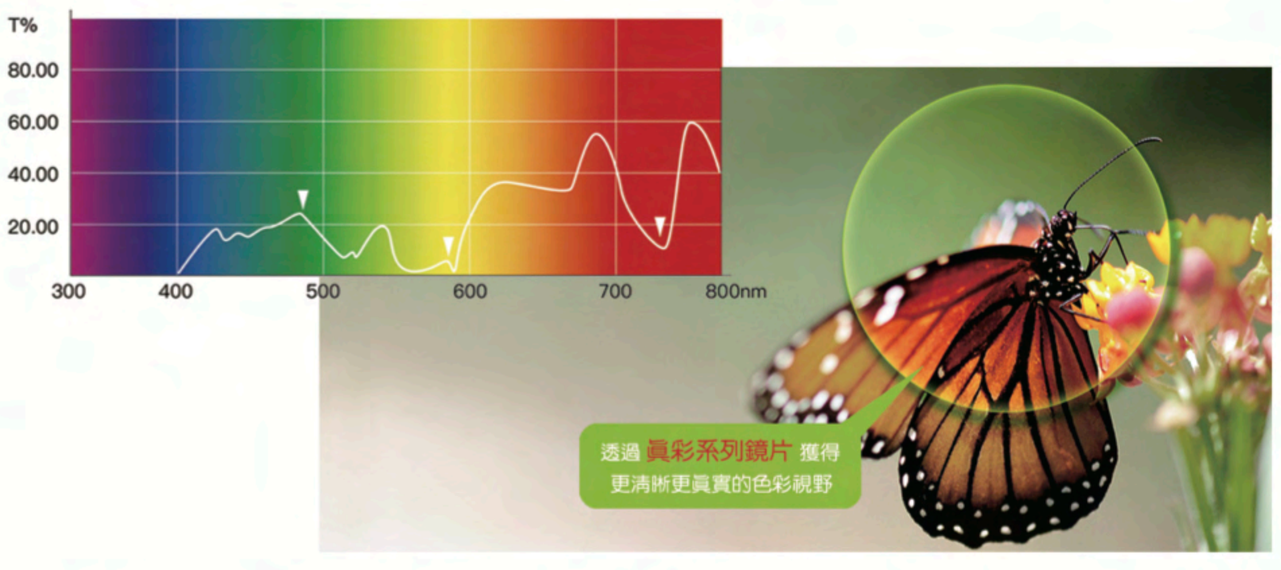
發掘精彩新世界

WITH CONTRAST ENHANCEMENT GLASS POLARIZED SERIES

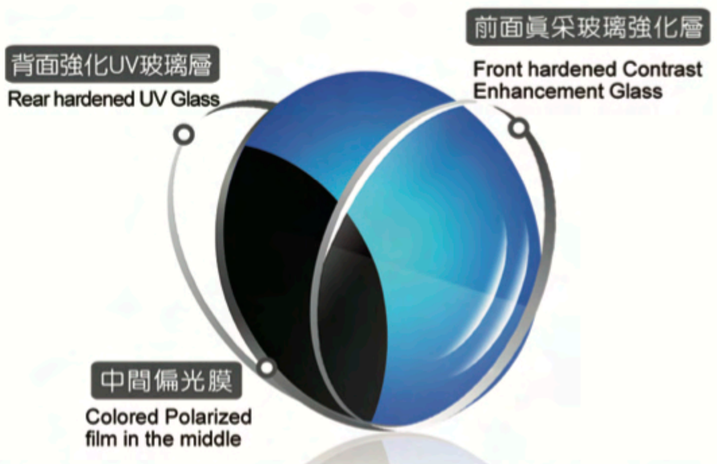
True color

真彩偏光系列

Xenotex Contrast Enhancement Glass Polarized Series employ high quality glass materials which, through specially- developed formula to achieve the high contrast function, effectively cut off the yellow light @ 577-597nm and enhance the contrast of various colors including red, yellow and green, thereby restoring the natural colors and ensuring a sharp, clear, glare-free vision for sunglass wearers.



玻璃偏光鏡片之“眞彩”系列－採用優質的玻璃原材料， 經過專家研發特別配方而產生眞彩效能， 能有效阻隔在 577 – 597 波段之黃光， 突出紅黃綠三色的對比， 還原眞實色彩，增加色彩的鮮艷度， 令視野景致更分明， 影像更清晰.



Made with chemically toughened glass wafers, **Xenotex Contrast Enhancement Glass Polarized Series** are finished with 3 tier vacuum lamination technology which deliver well protected, transparent and safe lenses. In addition, our Contrast Enhancement glass polarized lenses also breakthrough to reduce the lens thickness to 1.5-1.9mm from the traditional glass lenses ranging from 2.0-2.2mm. Sunglass wearers can experience an extreme light weight and comfortable sunglass.

思樂特眞彩玻璃偏光選用特制之強化玻璃，配合三層眞空貼合技術製成， 鏡片堅固安全，並擁有高透光率。眞彩偏光系列更突破傳統玻璃鏡片偏重的界限， 把鏡片厚度從2.0–2.2mm減至 1.5–1.9mm， 令太陽鏡整體更輕巧， 配帶更舒服。

At Xenotex, we possess our own professional design team, superior manufacturing technology and facilities.By collaborating with well managed high quality frames manufacturers,we undertake to deliver a unique, ultra slim and light weight, anti glare Contrast Enhancement Glass Polarized sunglass with extreme comfort.

我們擁有頂極的玻璃鏡片生產工藝和工廠， 專業設計團隊，有穩定規範的鏡框廠合作，專注制作高質，輕巧， 防眩光的眞彩玻璃偏光太陽眼鏡。

HAUG – Technologies for Spectacle Frame Manufacturing

Our product range covers the entire scope of all required appliances and equipment for the manufacturing of metal and plastic frames, amongst them CNC processing centers for frames and lenses, CNC eye-rim bending machines, welding and soldering workstations, metal forming systems such as, for example, hydraulic presses and automatic rotary swaging machines, assembly devices, surface technology, etc. All of them featuring the highest quality and latest innovation.

Just to name a few of our well-known bestsellers - amongst other things:

HAUG –眼鏡架製造技術

我們的產品範圍涵蓋製造金屬和塑料鏡框所需的所有器具和設備，包括鏡框和鏡片的CNC加工中心、CNC繞圈機、碰焊接和錫焊接工作站以及金屬成型系統，例如油壓機和自動旋轉式捋線機、組裝設備、表面處理技術等。所有產品都是最優質和先進。

列舉幾款我們知名暢銷的產品 - 其中包括：

SCHÜSSLER S-514
SCHÜSSLER S-514 Automatic 3-D CNC Rim-forming Machine

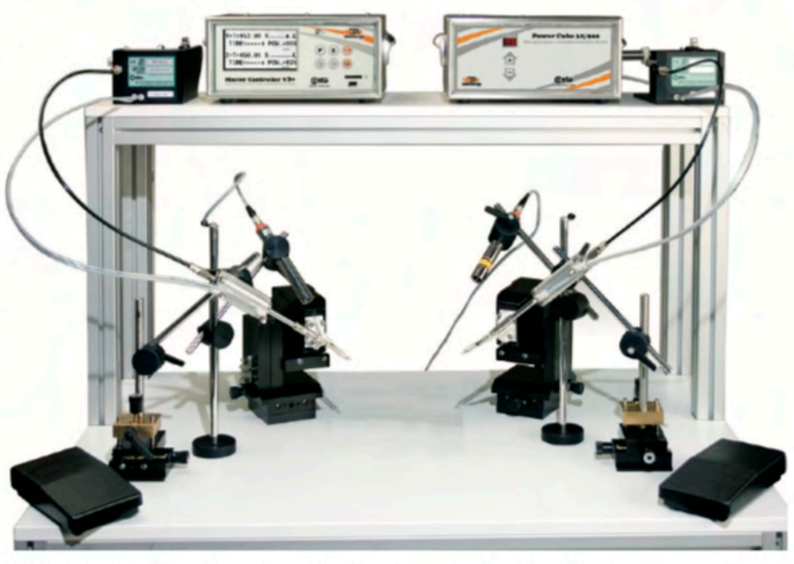
All in all the most suitable machine for today’s requirements of superbly wound eye-rims including cylindrical and toric base curves. Highly precise mechanics perfectly match with absolutely professional software for almost unlimited utilization. LAN+USB connectivity (Industry 4.0 ready). New command entry via touchscreen.

SCHÜSSLER S-514
SCHÜSSLER S-514全自動3-維CNC繞圈機

這是最合適的機器滿足現今對繞製精緻的圓柱體和環面打彎鏡框的要求。高度準確的機械與絕對專業的軟件完美配對，可以不受制肘地使用。透過LAN線和USB接駁(實現工業化4.0)。新指令可以通過觸屏輸入。

CEIA
CEIA The Power Cube Family

Stands for unlimited induction soldering technology-while being manufactured to ISO standards – featuring modern microprocessor technology and meets all challenges of modern spectacle frame manufacturing. The POWER CUBE generators are available in different power sizes and can be completed by control units MASTER CONTROLLER. CEIA technology is very suitable for integration into automated soldering systems, thanks to its variety of digital in- and outputs for external interfaces. The optional data logging function allows for quality control of every single soldering cycle.



CEIA
CEIA The Power Cube Family 錫焊系列

代表著無限交變感應錫焊技術。按照ISO標準製造，現代微形處理器的科技特色，充分滿足當今生產眼鏡架的各種挑戰。POWER CUBE發熱機有多種不同功率，可配合各樣控制箱，如MASTER CONTROLLER主體控制箱。CEIA技術非常適合集成到自動焊接系統中，這要歸功於其多種數字輸入和外部接口輸出。可選的數據記錄功能，允許對每個焊接過程進行品質控制。

Member’s Message by Haug (Far East) Ltd.

NEW CEIA POWER CUBE SYSTEM 900

This innovation features all the advantages of a temperature control system along with the well-known strengths of CEIA' s solid state generators, united in one device instead of two.

The system delivers 3.5 kW power output, whilst maintaining its well-known high efficiency, dependability and compactness, typical of CEIA high frequency generators, and in addition integrate the temperature control system and a high-resolution graphic TFT display for easy programming of all generator working parameters.

Up to two antioxidizing gas dispensers can also be connected.

As an option, the System 900 can be equipped with a wide selection of analog and digital I/O and a fieldbus interface for easy integration into company networks, and automatic production systems.

CEIA新的POWER CUBE系統900

這項改革特點是將溫度控制系統的所有優點和享負盛名的CEIA發熱機由原先的兩部結合為一部。

該系統提供3.5kW的功率輸出，同時保持其眾所周知的高效率、可靠性和精巧以及CEIA高頻發熱機的典型特徵，此外還配備了溫度控制系統和高分辨率圖形TFT顯示屏，可輕鬆對所有發熱機進行編程的工作參數。

最多可連接兩個抗氧化氣體分發儀。

作為一個選項，System900可以配備多種模擬和數字I/O及現場總線接口，以便輕鬆集成到公司網絡和自動生產系統中。

RÖSLER

RÖSLER® Ultimate surface treatment

of spectacle frame components. A perfect synthesis of automated machines and media – plastic and ceramic chips – everything developed and configurated for wet deburring – grinding – polishing of spectacle frame components. This technology can replace the traditional method of manual polishing and/or the dry processing in wooden barrels. RÖSLER® technology: your way to efficient and cost-saving working methods. Rotary Vibrators and High Energy Centrifugal Systems are available in different versions and sizes.

RÖSLER

RÖSLER®終極表面處理

眼鏡框架配件。綜合的自動化機器，配合優質的塑膠及陶瓷研磨石，清除鏡架配件的毛刺、研磨與拋光所建構的濕滾工藝。這個技術取代了傳統的人手打磨和/或以木桶乾滾等工序，RÖSLER®技術帶領你步向高效益及節省成本的生產路向。旋繞式震斗和高能量離心系列配備有多種不同版本及尺碼可供選擇。

會員資訊 亨達(遠東)有限公司

Cellulose Acetate Sheet

We are specialized in the production of high quality plastic sheets with imported raw material and comply with the Europe Grade and passed the SGS test.

It is used for producing cellulose acetate sheet for manufacturing optical frames, watch ornaments and other accessories. It can be produced in different patterns, stripes and colors upon to the request. Including mono color, multi layers, transparent , block demi ,pearl ,lamination… etc.
We have own a professional design team, advance equipment and technology. These can provide good quality, reasonable price and excellent service to you.

醋酸纖維素

我們用進口的原料專門生產高質量塑料膠板其通過歐洲等級及SGS測試。

它為製造光學框架、手錶裝飾品和其他輔助部件生產使用。可以按客戶要求生產不同樣式、條紋和顏色。包括單色，多層色，透明，壓板，珍珠 及拼料...等。
我們擁有專業設計小組、先進設備和技術。這些都能提供質量好，合理的價格和優秀服務給您。

Rivet Hinge

Innovation has been made on Rivet Hinges, besides the both sided rivet hinge and front concealed & back rivet hinge; we are now offering new combinations, as example, regular hinge with front hinge or temple hinge could be associated with 90□or 180□ temple use on the plastic frames. Rivet hinges can also match up with hinge with wire, stop hinge and metal front hinge. The sizes of hinges are wildly provided from 2.5mm – 10.0mm, for barrels, 3 – 11 barrels are provided. Holes are also provided from 2 to 4. These specifications are more efficiency for customers to fit their new ideas on any optical products.

鍋釘鉸鏈

鍋釘鉸鏈除了兩邊明釘、前暗後明的效果之外，現時已演變出大量不同的款式及組合供市場選擇；包括可做燙鉸效果的前框及胚鉸及與90°或180°框鉸組合於膠架上使用。鍋釘鉸鏈用途廣泛，同時亦可配合焊銅針、定位鉸效果及金屬前框的鉸鏈一同使用。
鉸鏈的呎吋由2.5mm至10.0mm均有提供；齒數方面，由總數三齒至十一齒的都可生產；釘孔的數量亦由兩個孔至四個孔由客戶按需選擇。

Varnish

Gandola, continuously provides our customers stable and high quality lacquers. Its outstanding performance on adhesion, resistance to perspiration and salt spray has gained industry-wide acceptances. In order to comply with the updating standards of restricted substances, Gandola provides customized solution according to your needs.

Our considerable expertise allows us to give our best in the area of coatings for metal and plastic eyewear. The wide range of our coatings includes high quality topcoat, primers and one-coat system, available in a variety of finishes and a broad range of colours to meet various technical and stylistic requirements.

In response to increasingly concern about the environmental issue, we have developed the new water-based products. The new water-based products may able to comply with the stringent regulation and reduce the impact to the environment at the same time.

塗料

簡都拿一直為客戶提供穩定及高品質的塗料。在附著力、人工汗及酸性鹽霧等測試上的超卓表現均受到業界的接受及信任。而為了配合不斷更新的限制物質使用標準，簡都拿可根據客戶的需要而定制最合適的方案。

我們在行業中的專業知識使我們能夠無論在金屬或塑料眼鏡上，皆可為客戶提供最好塗料選擇。而廣泛的產品包括了高質量的面漆、底漆及單一層塗料，配合多樣的質感及色彩，以滿足不同的技術及風格要求。

為應對被受關注的環境議題，我們開發了水性塗料的新系列。全新的水性塗料，可以等符合更嚴格的法規，同時亦可減少對環境的影響。

嘉軒國際實業有限公司　會員資訊

Sustainable hinges since 1996

Since more than 25 years, **OBE** has established an environmental system in Germany. Beside the fact of having reduced the consumption of energy, water and waste, the focus was orientated also on product recycling. In the profile production, OBE's philosophy of recycling consists in returning the metal chips of the produced spring hinges to the origin source. In average 70% of the chips in nickel silver, stainless steel or titanium are reused for new hinges. This percentage has been increased during the years as the hinges were designed more and more to minimise a negative impact on the environment. This is why **OBE** was awarded already in 2008 by a special SILMO d'or related to sustainability.

The ultimate example for the most eco-friendly hinge from **OBE** is flexUno MINI – a complete stainless steel spring hinge that has been reduced in its size to maximum! In fact, thanks to the short housing the material consumption was decreased by 25% - by granting at the same time an equivalent performance compared to the bigger products on the market. The size reduction was only possible thanks **OBE**'s metal injection moulding facility. This technology has officially been declared as a "green technology" because of the optimum material input and 100% recycling cycle. The non-used material is in fact totally re-granulated after injection and put into the production again – which makes the process extremely efficient.

PM™

A recognized green technology

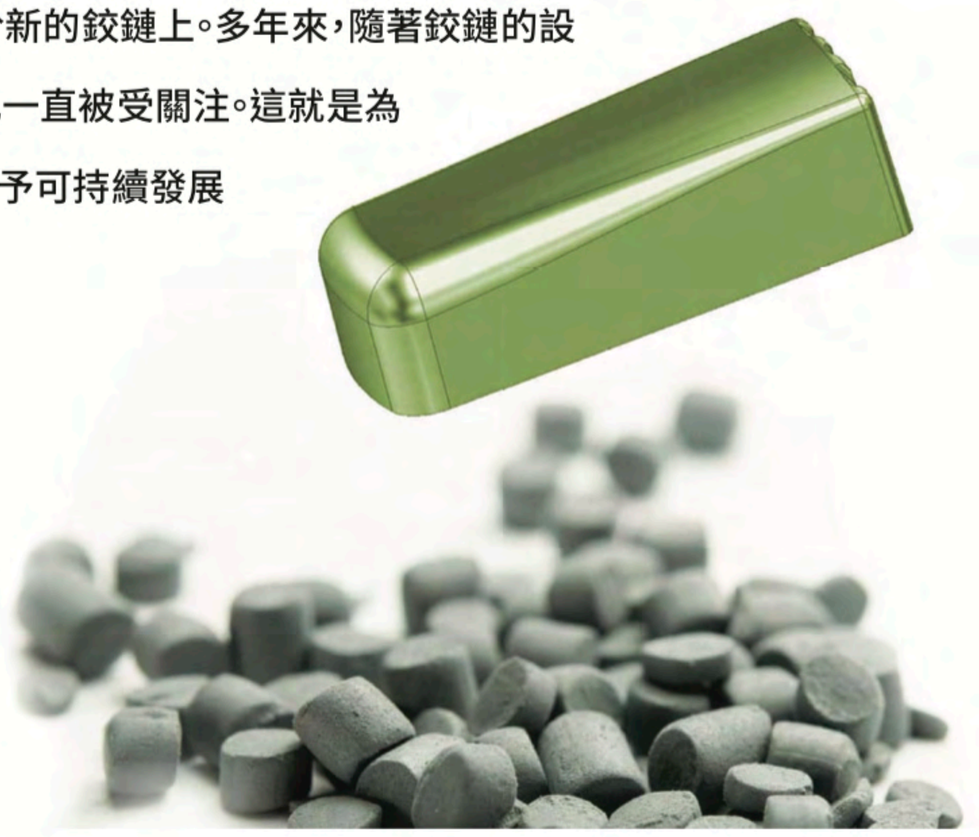
By using here a medical stainless steel, the product is extremely robust, durable and corrosion resistant. The medical aspect is related to the alloy, which is completely nickel free and as a result does not cause any allergies.

Finally, the implemented flexUno technology transfers all the advantages of flexibility, adjustability and zero rocking to this product – which can be used in full metal, combination and acetate frames. Another sustainable aspect should not be neglected: the optician can repair flexUno mini and other flexUno members easily in an unlikely case of rupture. This is why this product generation is very popular in children frames and can be considered as the hinge for the future generation!

Member's Message by OBE (Hong Kong) Ltd.

自1996 年，來自于 OBE 的可持續鉸鏈

25 多年來，OBE 在德國建立了可持續的環境系統。除了減少能源、水和廢物的消耗外，重點還放在產品回收上。在型材生產中，OBE 的回收理念包括在生產鉸鏈中的金屬碎片返回到原始來源。平均70%的鎳銀、不銹鋼或鈦都被重新用於新的鉸鏈上。多年來，隨著鉸鏈的設計越來越減少對環境的負面影響，這百分比一直被受關注。這就是為什麼OBE在2008年就已經被SILMO特別授予可持續發展的相關獎項。



在OBE中，最環保的鉸鏈例子是FlexUno MINI，一個全不銹鋼造的彈簧鉸鏈，尺寸已減至最小！事實上，由於外殼較短，材料消耗減少了25%，同時達到市場上較大鉸鏈的相等性能。由於 OBE 的金屬注射成型設備，FlexUno MINI才能縮小尺寸。該技術已被正式宣佈為“綠色技術”，因為它具有最佳的混入材料，同時有100%的回收循環,未使用的材料在註射後可完全重新造粒並再次投入生產，這個過程非常高效。

該產品通過使用醫用不銹鋼，非常堅固、耐用和耐腐蝕。醫療方面是與合金有關，因它完全不會含鎳釋放，因此不會引起任何過敏。

最後，通過 FlexUno 技術，將靈活性、可調節性和零搖擺的所有優勢轉移到該產品上。可用於全金屬、組合和塑料眼鏡上。另一個可持續方面也不容忽視：配鏡師可以在輕鬆修復 FlexUno mini 和其他 FlexUno鉸。這就是為什麼這一代產品在兒童鏡架中非常受歡迎，可以認為是下一代的鉸鏈！

會員資訊 奧比爾 (香港) 有限公司

Everlight has launched a new sustainable type of bio-acetate and registered its name as BIOTATE. BIOTATE is mainly made from natural and renewable resources, thus it is highly bio-based. BIOTATE is also free of harmful phthalates, such as DEP. BIOTATE offers endless color possibilites like traditional cellulose acetate material, which acts as the best eco-friendly solution to all responsible customers and manufacturers.

All bio production is made inside our own factory, from granules to finished acetate sheets.

BIO-BASED

It means that is made from natural and renewable resources, therefore it helps to reduce the dependency on limited fossil sources and the CO_2 emissions.
Bio-based acetate also offers other advantages such as low toxicity.

BIO-DEGRADABLE

It decomposes over time by the actions of biological organism and processes, reducing the amount of total waste in landfills.
It creates less pollution as it can be broken down into non-toxic components and returning back to natural enviroment. It produces much less greenhouse gas than petroleum- based plastic products.

PHTHALATES FREE

This means that the material is " safe". Phthalates are industrial chemicals used to soften plastic and as solvents in many consumer products, which can damage the liver, kidney, lungs and reproductive system. Phthalates have been restricted by many responsible brands.

品檢新世代技術
New Generation Quality Technologies
市場上最「火熱」的功能性眼鏡 & 最「智能」的自動檢測新方案
The Hottest Functional Eyewear & The Most Intelligent Automated Inspection Solution on the market

我們看到市場上有3大趨勢關於品檢, 作為旁觀者, 希望在此分享一些重點資訊給會員:

光致變色鏡片檢測 Photochromic Lens Test
型號Model: GET.Photochromic

如何讓客戶相信，你的光致變色鏡片無與倫比?

思考一下, 您的光致變色鏡片**與市場上的產品**表現有何分別? 變色速度及褪色速度如何? 變色後, 顏色深嗎? 屬於紫外光或可見光啟動變色?耐久度及重複性又如何呢? 在高溫及低溫下, 變色性能表現又如何呢?義大利AD Engineering新型號, 以**1秒**讀取**全光譜數據**, 自動來回光譜及啟動變色位置, 以**極短時間及**最正確方式, 真正讀取光致變色鏡片的變色前後數據及表現。

How do you convince your customers that your photochromic lenses are the best?

How's the performance of your photochromic lenses for the activation & de-activation speed? UV or Visible Light activation? Durability and Repeatability? Performance under High or Low temperature? Italy AD Engineering made an renewal design on machine which can **read full spectrum in 1 second** at **faded states** & **darken states** by automatic robot movement.

防霧測試 Resistance to Fogging Test
型號Model: Anti-fog Tester (Double System)

為什麼市場上超過70%的防霧產品還是不能達到客戶的期望?

市面上所提供的防霧藥水及塗層, 如親水性及疏水性等,**足夠嗎**? 其實防霧並**不只依賴鏡片**, 有沒有想過鏡架的**排氣設計**也是同樣重要呢? 義大利AD Engineering的防霧測試, 除了配有最基本標準要求的鏡片防霧測試(N-Mark)外, 引入嶄新技術, 以眼鏡行業最精確的模擬佩帶定位方式(人頭模), **實況**測試成品眼鏡的排霧效果, 真正全面瞭解產品的防霧性能。

Why are there over 70% of Anti-fog eyewear that fails to meet customer usage experience expectation?

Having selected specific supply of anti-fog coating onto your lens or eyewear products (hydrophilic vs. hydrophobic), **is this sufficient?** In fact, it is safe to say that relying on anti-fog lens function alone may not yet be the true total solution. Complementary Frame design with good ventilation may set apart best performers from losers. On top of mere N-mark standard compliance, our dedicated testing device has integrated brand new **fog-cam system** that can test complete eyewear using real-time vision system technology for anti-fog performance test. Truly put a smile of sports & tactical users!

NEO Optix
型號Model: Cosmetic Defect Inspection System, Colour & Compliance Inspection System

超越視覺的自動檢測方案

在全球各項工業飽受疫情影響以致工廠員工上班時數減少之際, Neo Optix從歐洲引進了專門針對鏡片外觀瑕疵及色差標準的自動檢測系統。我們的自動檢測系統在過去十年已在歐洲各個大型鏡片製造工廠內安裝了超過一百組, 更把業務版圖拓展至北美洲及亞洲(中國, 香港, 日本)等地。

我們相信**我們的系統是市場上最成熟的技術**, 成功為客戶解決人手不足、技術青黃不接的煩惱(相比市場上其他研發中的系統, 讓客戶作為"白老鼠", 因技術能力, 經常出現誤判)。我們的鏡片自動檢測系統不僅於為廠方減少人力成本, 更重要的是令鏡片工廠能貼近並實踐全球工業的大趨勢 – 工業4.0。

在此，Neo Optix正式面世。

Inspection that Beyond vision

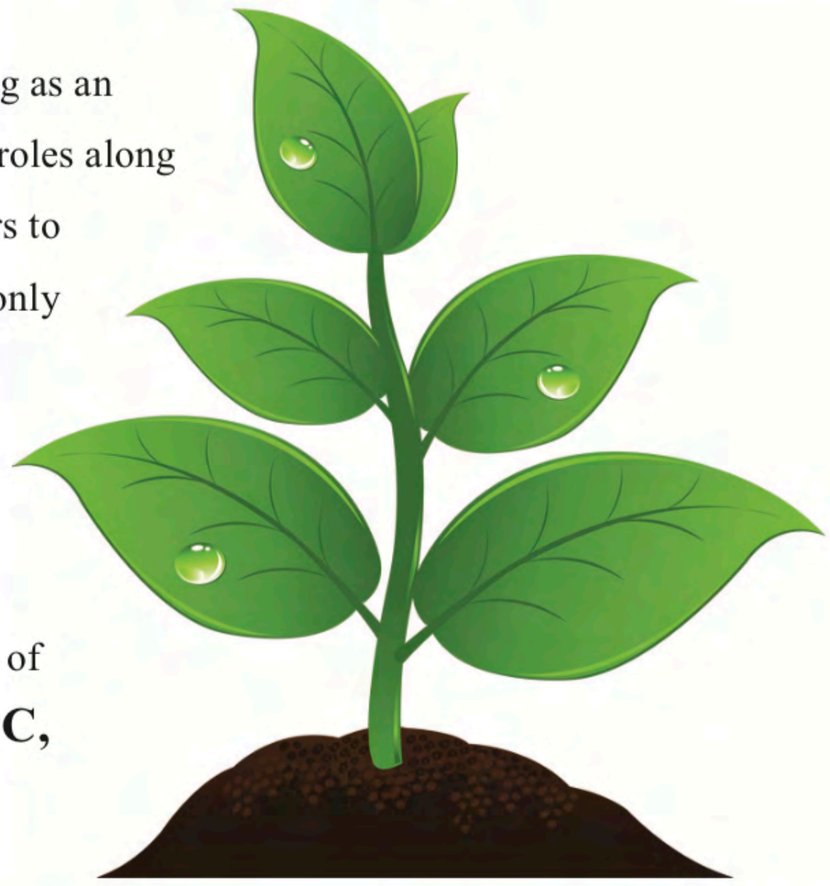
The recent epidemic greatly depressed factory working hours in all fields. Neo Optix introduces a cosmetic defect and colour & compliance automatic inspection system specialized for optical lens industry. Over 100 systems has been installed globally across top European, Asia (China, HK, Japan), & U.S. lens factories in past 10 years, and now expanding the business to North America and Asia.

We believe our system is most mature technology on market (vs. all others "under-development" solutions having clients as guinea pigs). Our system not only help to reduce long term problem highly-skilled labor requirement, also guiding lens producer towards the big trend - Industry 4.0.

Behold, Neo Optix is here.

Tung Fung Group which was established in 1987. We are a leading "One-Stop" supplier of spectacles-related raw materials and components.

For the numerous types of eco friendly products, we, Tung Fung as an experienced optical company, has used our ability on different roles along the supply chain, in the largest extent to help our fellow partners to innovate and develop in environmental protection. We are not only proactively finding new eco friendly sourcing, but also variously providing components made from eco friendly material.



Many third party inspection institutions provide different kinds of aid and certification. The most common institutions are -- **ISCC, GRS and Green Leaf.**

	Recycled Materials	Renewable Materials	Biodegradable Materials	Bio-based Materials
Product	✓ Lens ✓ Demo Lens ✓ Nose Pad ✓ Temple	✓ Acetate ✓ Lens ✓ Demo Lens ✓ Nose Pad ✓ Temple	✓ Acetate ✓ Lens ✓ Demo Lens ✓ Nose Pad ✓ Temple	✓ Lens ✓ Demo Lens ✓ Nose Pad ✓ Temple

東峰集團始創於一九八七年，我們經過三十多年的努力，成功打造出一個獨一無二，全產業鏈方案提供給眼鏡業界。從原材料開發及應用，及至使用在不同眼鏡配件的生產及供應，協助業界通過不同國家認證的要求，全方位解決同業供應鏈上的難題。

近年全球對環保產品之需求殷切，我們亦運用在業界的經驗，由原材料出發打造出一系列對應環保需求之產品提供給業界。

部分產品已經通過或具備**ISCC / GRS /Green Leaf** 等等環保認証。我們集團希望能為推動全球環保盡一分力，同時能為業界創造更理想條件，提供更完善之一站式解決方案。

BioAcetate S70 – Better Performance! Better Earth!

Wingram is in the business of plastic manufacturing with a particular focus on sustainable and eco-friendly alternatives. In terms of eyewear products, Wingram's newest BioAcetate S70 series is an eco-friendly material that aims to replace conventional acetate.

In terms of performance, BioAcetate S70 stands out because of its Hardness Enhanced CA (HECA) properties. Frames made from Bioacetate S70 will not shrink or deform, has superior polishing, increased glossiness, is anti-brittle, and has highly reduced material cracking and waste during all production phases.

As a material, BioAcetate S70 is applicable to injection molding and acetate sheet production. When compared to traditional acetate, BioAcetate S70 stands out because it is renewable, recyclable, sustainable, free of harmful plasticizers such as DEP, biobased, and biodegradable. Of particular importance is that BioAcetate S70 offers an end-of-life solution to the material because it is biodegradable according to the international standard of ISO 14855.

“含生物基” 塑料
Bio-Mass Material

市面上大部份的塑料主要成分都是石油和天然氣的衍生物。
BIO Lens是種一新世代的生物基光學級塑料，利用蓖麻油 (Castor oil) 代替石油成分。
The main ingredient in most plastic material is a derivative from fossil oil and natural gas. Bio-Lens, an optical bio-mass materials, using apart of castor oil to supersede fossil oil.

Castor (河狸)

Castor (蓖麻)

BIO Lens 的物理特性，色彩表現都與尼龍鏡片相約，若果你正在使用尼龍鏡片，不要猶豫，馬上聯絡我們。
The characteristic and color performance of Bio Lens are very close to the PA lens. If you are using PA lenses, do not hesitate to contact us immediately.

“可生物降解” 塑料
Biodegradable Material

ELF Lens

ELF Lens

- 是一款專為"有氧可生物降解條件" 開發的鏡片。

並根據 ISO 14855 "在受控堆肥條件下測定最終有氧生物降解性"進行測試。
(模擬典型混合城市垃圾的有氧堆肥法)

ELF Lens

- It is particularly designed for a biodegradable lens in aerobic conditions.

It is tested under ISO 14855, a standard testing method for determining the ultimate aerobic biodegradability under controlled composting conditions.
(Simulating the typical aerobic composting conditions mixed municipal waste)

ELF Lens 含約 52% 的"生物基"，進一步減少消耗地球資源!
ELF Lens contains about 52% "bio-mass" , further reduce the consumption of earth resources!

DYO Lenses

DYO Lenses

- 是一種新世代性的"厭氧可生物降解" 鏡片。

- 物理特性，色彩表現與傳統塑料鏡片相近。
- 與醋酸纖維架、TR注塑架、金屬架等有良好的兼容性。
- 保質時期和存儲要求亦沒有顯著差異。

DYO Lenses

- New generation of "Anaerobic and Biodegradable" lens.

- No significant physical characteristics difference from traditional plastic lenses.
- Good compatibility with Acetate frame, TR injection frame and Metal frame.
- Same shelf life and storage requirement as to other traditional plastic lenses.

TESTED
Intertek

DYO Lenses 更取得“Intertek - Green Leaf 綠葉認証”!
DYO lens obtained "Intertek-Green Leaf Certification"!

Tung Fung Group

New Green Lens：G-TR Sun Lens

EASTMAN TRITAN™ RENEW

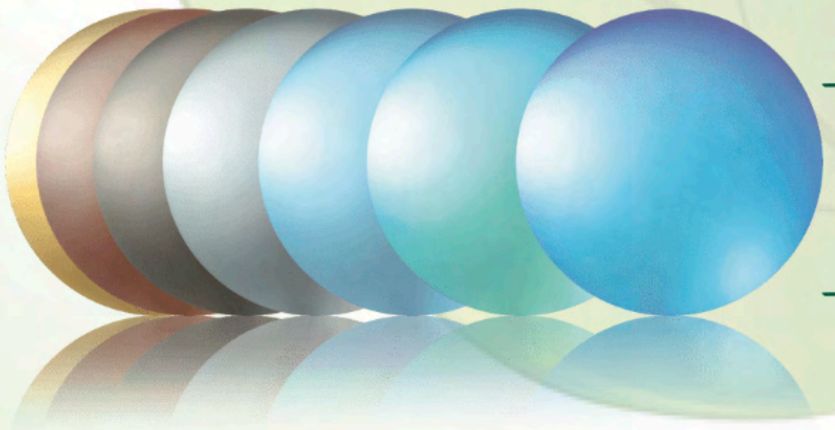
Tung Fung Group is introducing innovative and revolutionary initiatives (via Molecular Recycling Technology) that are sustainable and useful in helping the world go Green. We hereby announce the introduction of Eastman Tritan™ Renew in **sun lenses -- G-TR.**

Eastman Tritan™ Renew is a high-performance copolyester containing 50% certified recycled content.**

Durable and BPA-free, pass ANSI, AS/NZS, EN ISO 12312.

G-TR Sun Lens offers sustainability without compromise, ensuring performance and safety, compatible to all frame materials including acetate.

東峰集團正努力提出可持續且有用的新方法，以幫助世界走向綠色。我們宣佈在太陽鏡片中引入 Eastman Tritan™ Renew研發自家新產品 - G-TR太陽鏡片。這種新型綠色環保鏡片，是伊士曼（Eastman）現正大規模提供，可持續樹脂產品組合的一部分，伊士曼是全球特種材料供應商和分子回收領域的先驅。



Eastman Tritan™ Renew 是一種高性能共聚酯，含有 50% 經認證的回收組分**。

耐用且不含 BPA，通過ANSI, AS/NZS, EN ISO 12312。

G-TR Sun Lens 是一款可持續性,高性能和安全使用的產品，兼容所有框架材料，包括醋酸纖維。

**The recycled content is achieved by allocating the recycled waste plastic to Eastman Renew materials using a mass balance process certified by ISCC.

**通過使用經 ISCC 認證的質量平衡流程將回收的廢塑料分配給 Eastman Renew 材料來實現回收含量。

This imposing temple is dedicated to Che Kung, a Southern Song dynasty military commander who was particularly skilled in putting down uprisings in the 13th century. He escorted the last Song emperors to Hong Kong as they fled Mongolian invaders.

People in Sha Tin dedicated a temple to him about 300 years ago in order to stop the spread of a local epidemic; local lore has it that the disease vanished the day the temple was completed.

Visitors today will encounter a giant statue of Che Kung and a wheel of fortune that is said to bring good luck when spun three times.

Che Kung Temple
Che Kung Miu Road, Tai Wai,
Sha Tin, New Territories

Nearby Che Kung Temple, there is a green building sport centre, where the green elements are incorporated in every places of the centre, bringing nature to indoor areas.

The architects deliberately do away with air-conditioning in all open access to promote natural ventilation and also let in sunlight, thereby protecting the environment and reducing electricity consumption.
