Michelle Ng

President
Hong Kong Optical Manufacturers Association

FOREWORD

Welcome to HKOMA Annual Directory (issue 2026).

It is my great pleasure to be elected as the 24th President of HKOMA. I would like to share my views on the future development of Hong Kong Optical Industry. Currently, the industry is facing the most challenging operating environment.

Hong Kong eyewear manufacturing industry has gone through more than half a century, and its visibility in the global market is increasing day by day. This is an obvious result of colleagues in the industry. According to the source of the Census and Statistics Department of Government of Hong Kong Special Administrative Region, Hong Kong was the world's third largest exporter of spectacles and frames in 2023, after Chinese mainland and Italy. In Jan-May 2025, Hong Kong's total exports of spectacles, lenses and frames increased by 6% year-on-year to HK\$9.0 billion. Hong Kong's two largest markets are the EU27, which saw sales grow by 7% and the US, with sales down 3%, together account for more than 50% of the total. Exports to Chinese mainland, the third largest export destination, also rose significantly by 29% year-on-year in the same period.

In recent years, the global economy has been continuously affected by US tariffs, resulting in a turbulent and uncertain trade environment. These tariff policies have not only seriously disrupted Sino-US trade relations, but also caused widespread impact on global supply chains, exacerbating operational uncertainties in production and logistics fields. Some Hong Kong manufacturers have adopted a forward-looking strategy a few years ago, established overseas production bases, and actively leveraged network synergies to flexibly allocate capacity to respond to market dynamics. They also regularly review the operating costs of all production facilities and implements targeted cost optimization measures from many aspects, hoping to maximize operational efficiency and enhance the overall resilience of enterprises in the ever-changing trade environment.

During the next two years of my term, I will lead the team of HKOMA Executive Committee to continue the mission of the Association, to fully promote unity and collaboration among our members, promote breakthroughs in upgrading design and technical capabilities, add value to products and services, and further enhance industry efficiency and market competitiveness. At present, the rapid development of new technologies such as artificial intelligence(AI), the eyewear industry must proactively embrace change – AI can not only significantly improve production efficiency, but also provide creative solutions in the design stage; we will seize these technological opportunities and deeply integrate them into our business strategies to strengthen our competitive advantages in the industry.

Under the influence of the geopolitical situation and weak traditional markets, the international business environment is complex and changeable, and export manufacturing is facing considerable pressure. However, we are still full of confidence in the prospects of the industry. The demand for eyewear products in the global market is still huge. HKOMA will continue to communicate closely and deepen cooperation with relevant departments of the Hong Kong SAR Government, universities and colleges, as well as eyewear industry groups in the mainland and overseas, to strive for a better business environment for the industry. At the same time, we must close the cohesion of the industry, achieve inheritance and nurture the backward, aiming to create a new milestone for the Hong Kong eyewear industry.

序言

吳逸珊

香港中華眼鏡製造廠商會 會長

歡迎閱讀 香港中華眼鏡製造廠商會2026年會刊。

本人深感榮幸當選為商會第24屆會長，在此與大家分享對香港眼鏡工業未來發展的意見。目前，業界面臨最具挑戰性的經營環境，希望在我未來兩年的任期內，與商會新屆執行委員會成員攜手努力，為香港眼鏡工業的進步和發展譜出新篇。

香港眼鏡製造業走過半個多世紀的歷程，其在全球市場的知名度與日俱增，這是業界同仁有目共睹的成果；根據香港政府統計處資料：於2023年香港是全球眼鏡及眼鏡框架的第三大出口地，僅次於中國內地及意大利。而2025年1至5月，香港的眼鏡、鏡片及眼鏡框架出口總值為90億港元，按年上升6%；歐盟(27國)及美國是香港兩大眼鏡出口市場，共佔本港整體眼鏡出口超過50%。香港對歐盟(27國)出口按年上升7%，對美國按年下跌3%。中國內地是第三大市場，同期香港對內地的出口按年揚升29%。

近年全球經濟持續受到美國關稅的影響，導致貿易環境動盪且充滿不確定性。這些關稅政策不僅嚴重擾亂了中美貿易關係，也對全球供應鏈造成了廣泛的衝擊，加劇了生產和物流領域的營運不確定性。一些香港製造商早在幾年前就採取了前瞻性策略，建立海外生產基地，並積極利用網路協同效應，靈活調配產能以應對市場動態。製造商同時定期審查所有生產設施的營運成本，從多方面實施有針對性的成本優化措施，冀望在最大限度地提高營運效率，令企業在不斷變化的貿易環境中，增強整體韌性。

在未來兩年任期內，我將帶領團隊延續香港中華眼鏡製造廠商會的宗旨：全力促進會員間的團結協作，推動設計與技術能力的升級突破，為產品與服務賦能增值，進一步提升行業效率與市場競爭力。當前，人工智能(AI)等新技術飛速發展，眼鏡行業必須主動擁抱變革-AI不僅能顯著提升生產效率，更能在設計環節提供創意性解決方案；數據分析與智能製造的趨勢，也將幫助我們精準洞察市場需求，快速響應消費者期待。我們必將緊抓這些科技機遇，將其深度融入業務策略，築牢行業競爭優勢。

在地緣政治局勢、傳統市場疲弱等影響下，國際營商環境複雜多變，出口製造業面臨不小壓力。但我們依舊對行業前景充滿信心，全球市場對眼鏡產品的需求依然龐大，眼鏡業的出口之路蘊藏無限機遇。商會未來將持續與香港特區政府相關部門、各大專院校，以及內地、海外的眼鏡業團體緊密溝通，深化合作，為業界爭取更優質的營商環境。同時，更要緊密業界的凝聚，達致傳承培育後進，為香港眼鏡工業創出新里程。

Congratulatory Message

Sophia Chong

Executive Director
Hong Kong Trade Development Council

Congratulatory Message from the Executive Director of the Hong Kong Trade Development Council

Hong Kong has long been one of the world's leading eyewear exporters. In 2024, the city's exports of spectacles, lenses and frames rose by 10% year-on-year, reaching HK\$22bn. Hong Kong's premier position in the global eyewear industry can be attributed not only to the industry's outstanding skill set and design quality, but also to the efforts of the Hong Kong Optical Manufacturers Association. Over the years, the association has played a pivotal role in promoting Hong Kong's optical manufacturing industry and supporting its expansion into overseas markets.

A testament to this advocacy is its role as the co-organiser of the HKTDC Hong Kong International Optical Fair, widely regarded as one of Asia's leading optical trade shows. Under the theme "Bright Eyes · New Horizons", the 33rd Optical Fair took place from 5 to 7 November 2025 at the Hong Kong Convention and Exhibition Centre. The event presented more than 660 exhibitors from 19 countries and regions, including pavilions from various regions of the Chinese Mainland, ASEAN, Japan, Korea and the association itself.

Exclusively dedicated to branded eyewear, the Brand Name Gallery remained the centrepiece of the Fair, with more than 200 brands featured. With smart glasses poised to drive industry growth over the next few years, the Smart Eyewear zone showcased the latest smart glasses and related technologies. Complementing this, the Designer Cafe & Innovation Hub offered a dedicated space for designers' creations and innovative optical technologies. Additional thematic zones included Contact Lenses & Accessories; Diagnostic Instruments; Eyewear Accessories; Frames & Parts; Lenses; Optometric Instruments, Equipment & Machinery; Reading Glasses; Shop Fittings & Equipment; and Sporting & Professional Eyewear.

Additionally, three thematic labels – namely Green Solutions Suppliers, Smart Eyewear and Smart Ageing Products – were applied to related exhibitors to facilitate sourcing.

During the Fair, buyers scanned exhibitor QR codes using the Scan2Match function in the HKTDC Marketplace App to bookmark their favourite exhibitors, browse product information and engage with exhibitors during and after the exhibition. After the physical Fair period, buyers continued their sourcing journey via the Click2Match smart business matching platform and hktdc.com Sourcing website.

A series of conference sessions and seminars on optometric and eyewear technology were curated to provide visitors with invaluable industry intelligence on smart eyewear, sustainability, the silver market, and emerging market and product trends. A highlight was the 23rd Hong Kong International Optometric Symposium, held under the theme "Age Well, See Well: Redefining Eye Care for the Golden Age." Renowned speakers from Australia, Hong Kong, Singapore and the UK shared insights on the evolving role of optometrists in enhancing seniors' quality of life. Eyewear parades also took place throughout the Fair period, with models demonstrating exhibitors' standout spectacles and sunglasses.

In addition to co-organising the Optical Fair, the association works with the Hong Kong Trade Development Council to host the annual Hong Kong Eyewear Design Competition — an initiative aimed at advancing the city's design capabilities and nurture budding talent. The winning and finalist entries of the 25th edition, themed "Blending Tradition and Technology", were displayed during the Optical Fair. Given the high standards of the submissions, I am confident that there is a bright future for Hong Kong's optical industry.

On behalf of the HKTDC, I would like to thank the association once again for its contribution to the city's optical industry. I look forward to deepening our collaboration with the association to further advance the industry's growth and innovation. Inspired by the theme of the 2025 Optical Fair, I wish the association continued success and bold strides towards new horizons in 2026.

Sophia Chong
Executive Director
Hong Kong Trade Development Council

賀辭 張淑芬

香港貿易發展局 總裁

香港是全球領先的眼鏡產品出口地之一，2024年香港眼鏡、鏡片及鏡框出口總值達220億港元，按年增長一成。香港眼鏡業穩居全球前列，除有賴業界卓越的工藝與高質量的設計，香港中華眼鏡製造廠商會亦功不可沒。商會在推廣香港眼鏡製造業，以及助力業界開拓海外市場方面，一直擔當舉足輕重的角色。

香港貿發局香港國際眼鏡展可以成為亞洲首屈一指的眼鏡業商貿展覽，也與商會多年來積極協辦息息相關。第33屆眼鏡展於2025年11月5至7日假香港會議展覽中心舉行，以「睛彩新視野」為主題，匯聚19個國家及地區逾660家參展商，並設有多個海內外展團，包括來自中國內地不同省市、東盟、日本、韓國及香港中華眼鏡製造廠商會等。

集中展示品牌眼鏡的「品牌廊」繼續是展會焦點，網羅超過200個品牌。鑑於市場預期智能眼鏡將於未來數年帶動行業增長，「智能眼鏡」展區為買家帶來最新智能眼鏡及相關技術。「設計師雅座及智能科技體驗區」則為眼鏡設計師的作品及創新眼鏡科技提供專屬空間。展會另有其他展區，包括「隱形眼鏡及配件」、「驗眼儀器」、「眼鏡配件」、「眼鏡框及部件」、「鏡片」、「光學儀器、設備及機械」、「閱讀用眼鏡」、「商店裝置及設備」，以及「運動及專業眼鏡」。

此外，展會設有「綠色方案供應商」(Green Solutions Suppliers)、「智能眼鏡」(Smart Eyewear)及「樂齡產品」(Smart Ageing Products)主題標誌，凸顯相關參展商，方便買家採購目標產品。

買家可以使用HKTDC Marketplace App的「掃碼易」(Scan2Match)功能，掃描展商的專屬二維碼，收藏喜愛的展商及瀏覽產品訊息，於展覽期間或展後與展商聯繫。買家亦可以用「商對易」(Click2Match)智能商貿配對平台及「貿發網採購」(hktdc.com Sourcing)，在實體展結束後與本地及海外展商進行線上洽商，繼續採購之旅。

大會安排了多場視光學及眼鏡科技的會議及研討會，為參觀人士提供寶貴的行業資訊，涵蓋智能眼鏡、永續產品、銀髮市場，以及新興市場和產品新趨勢等議題。作為重點活動之一的第23屆「香港國際視光學會議」以「智慧護眼，樂享年華：黃金歲月眼科護理新標準」為題，邀請了來自澳洲、香港、新加坡及英國的知名講者，探討視光師在提升長者生活質素中日益重要的角色。展覽期間亦舉行了多場眼鏡匯演，由模特兒演繹參展商的特色產品及太陽眼鏡。

除了協辦眼鏡展，商會每年都會與香港貿發局合辦「香港眼鏡設計比賽」，冀提升本港的設計水平及培育人才。第二十五屆比賽以「糅合傳統與科技」為設計主題，獲獎及入圍作品於眼鏡展現場展出。當中不乏高水平作品，讓我對香港眼鏡業前景充滿信心。

我謹代表香港貿發局，再次感謝香港中華眼鏡製造廠商會對香港眼鏡業作出的貢獻。我期待與商會進一步深化合作，一起推動香港眼鏡業持續發展與創新。讓我借今年眼鏡展的主題，祝願商會在2026年開展「睛」彩新視野。

香港貿易發展局總裁
張淑芬

張淑芬

Joining Hands with Industry to Nurture the Next Generation of Eyewear Designers

Daniel K.Y. Chan Head of Department

Department of Architecture, Interior and Product Design, Hong Kong Design Institute

The Department of Architecture, Interior and Product Design at the Hong Kong Design Institute (HKDI) has long maintained close collaboration with the Hong Kong Optical Manufacturers Association, jointly committed to nurturing new design talent with international vision and practical capability for Hong Kong's eyewear industry. Over the years, the Association and its member companies have provided sustained support to students in areas such as scholarships, the Mentorship Scheme, professional competitions, visits and exchanges, and curriculum development. This has fostered synergy and alignment among design, manufacturing, and the market, enabling students to build a comprehensive understanding of the industry and hands-on competence during their studies.

First, in talent cultivation and recognition, the Association donates scholarships annually to commend students who excel in eyewear design, craftsmanship/technology, and academic performance. These scholarships are not only an encouragement but also an acknowledgment of students' effort and potential, providing them with resources and motivation as they pursue their design aspirations. Students generally report that the scholarship program greatly enhances their engagement with the eyewear discipline and pushes them to strive for higher standards in areas including design concepts, ergonomics, materials application, and continuous innovation.

Second, the "Mentorship Scheme" jointly organized by HKDI and the Association each year is a core component of academia–industry collaboration. Industry mentors provide targeted guidance and professional advice on students' capstone projects, including clarifying design direction, assessing manufacturing feasibility, considering cost control, understanding process workflows, and offering recommendations on brand positioning and market strategy. Throughout the process, students not only gain inspiration and advice but also learn how to balance creativity and commercial realities, making their graduation works more practical and feasible. Participating companies often assist with prototype/sample production, turning students' designs from drawings into tangible products that showcase both creativity and mass-production potential at the graduation exhibition. We extend special thanks to the Association's directors and members who have actively participated over the years—it is your dedication and resources that have enabled our students' growth. This year's Mentorship Scheme is in preparation; six students have already been selected and matched with the Association, and we look forward to continued support from all members.

In addition, HKDI encourages students every year to actively participate in the "Hong Kong Eyewear Design Competition," which exposes them to real-world judging mechanisms and industry standards. Shortlisted entrants must produce prototypes for final adjudication, and the Association consistently provides technical and resource support in this process, including sample processing, craftsmanship advice, structural reinforcement, and detail optimization. Through the competition, students think more sharply about unifying functionality and aesthetics, while improving their presentation and pitching skills through exchanges with the judging panel. This year, students from HKDI's Higher Diploma in Jewellery Design and Technology and Higher Diploma in Product Design swept the student category, winning champion, first runner-up, and second runner-up—fully demonstrating the institute's success in nurturing design talent and the positive impact of academia–industry collaboration.

Beyond classroom teaching and competitions, HKDI also arranges annual visits to the Mainland for students to tour eyewear manufacturing facilities, with strong support from the Association. By entering factories, students can observe key stages first-hand—frame machining, lens processing, surface treatment, polishing and coating, quality inspection, and packing and shipping—and understand how each step from design to mass production affects the final product. These visits give students a more comprehensive grasp of materials selection, ergonomics, sustainability, and quality management, thereby sparking stronger interest and ambition to join the eyewear design profession.

On the curriculum development front, the Association actively provides advice and input. It has long sent representatives to participate in the Jewellery and Timepiece Training Board under the Vocational Training Council (VTC), where we discuss critical topics such as curriculum framework, skills standards, manpower needs, and industry trends. This institutionalized exchange helps the institute balance academic depth with industry requirements and incorporate emerging themes in a timely manner, such as smart eyewear, innovative materials, digitalized production processes, user experience research, and ESG and sustainable design. Through practical alignment with the Association, HKDI can more precisely cultivate graduates who possess interdisciplinary capabilities and a business mindset.

In terms of industry trends, "artificial intelligence" is undoubtedly a hot topic in recent years. HKDI designed and launched an "AI Eyewear Design Workshop" for Association members, enabling participants to get a first taste of AI-assisted design; feedback from attendees has been overwhelmingly positive. Looking ahead, we hope to deepen collaboration with the Association by providing more needs-based in-service training and Continuing Professional Development (CPD) courses, helping enterprises advance more steadily and effectively in digital transformation and talent upgrading.

In summary, the long-term collaboration between HKDI and the Hong Kong Optical Manufacturers Association has injected strong momentum into local eyewear design education and industry innovation. From scholarships to the Mentorship Scheme, from design competitions to factory visits, and from curriculum consultation to AI workshops, every facet embodies an educational philosophy that is student-centred and industry-guided. We sincerely thank the Association for its years of support and contributions, and we look forward to the Mentorship Scheme achieving new heights this year—enabling the six paired students to create works with greater design depth and market value under the guidance of industry mentors. Going forward, HKDI will continue to uphold the "Think and Do" education approach, working hand in hand with the Association and its member companies through more co-creation projects, internship opportunities, applied research, and talent training to cultivate a new generation of professionals for Hong Kong's eyewear industry who combine creativity, technology, and a strong sense of responsibility. Once again, we thank the Association for its steadfast support—let us together witness and drive the continuous progress and exciting development of Hong Kong eyewear design.

攜手與業界培育新一代眼鏡設計人才

陳光耀

香港知專設計學院（HKDI）建築、室內及產品設計系系主任

香港知專設計學院（HKDI）建築、室內及產品設計系一直與香港中華眼鏡製造廠商會保持緊密合作，共同致力於為本地眼鏡業界培育具國際視野與實務能力的新進設計人才。多年來，商會及其會員企業在獎學金、友師計劃、專業比賽、參訪交流及課程發展等範疇為同學提供持續支持，促進「設計—製造—市場」三者之間的協同與接軌，讓學生能夠在求學階段就建立對行業的全面理解與實戰能力。

首先，在人才培育與肯定方面，商會每年均捐助獎學金，以表彰在眼鏡設計、工藝技術及學術成績方面表現突出的同學。這些獎學金不僅是一種鼓勵，更是對學生努力與潛力的認可，讓他們在追尋設計理想的路上能獲得資源與動力。同學普遍反映，獎學金計劃大幅提升了他們對眼鏡專業的投入度，並促使他們在設計概念、人體工學、材料運用、持續創新等方面追求更高標準。

其次，HKDI與商會每年合辦的「Mentorship Scheme友師計劃」屬產學合作的核心環節。業界導師會在同學的畢業項目中提供針對性的指導與專業意見，包括設計方向的梳理、製造可行性的評估、成本控制的考量、與工藝流程的理解，以至品牌定位與市場策略的建議。同學在過程中不僅獲得靈感與建議，亦能學習如何在創意與商業之間取得平衡，令畢業作品更加「落地」。參與企業往往協助樣板製作，讓學生的設計從圖紙走向實物，於畢業展中呈現出既具創意、又具量產可能性的作品。對此，我們特別謝謝過往踴躍參與的各位會董及商會會員，正是你們的心力與資源，成就了學生的成長。今年友師計劃正值籌備階段，現已選出六位同學與商會進行配對，期盼各會員繼續支持！

另外，HKDI每年鼓勵學生踴躍參加「香港眼鏡設計比賽」，藉此讓同學接觸真實評審機制與業界標準。入選初賽者需製作樣板參與決賽評審，商會在此過程中一向提供技術與資源支援，包括樣板加工、工藝建議、結構強化與細節優化等。同學能透過競賽更聚焦地思考設計的功能性與美學性如何統一，並在評審交流中提升表達與匯報能力。今年，HKDI的珠寶設計與科技高級文憑及產品設計高級文憑的同學更囊括學生組冠、亞、季軍，充分展現了學院在培育設計人才上的成果，以及產學合作所帶來的正面效應。

除了校內教學與競賽，HKDI亦每年安排同學往返內地參觀眼鏡生產設施，商會對此給予鼎力支持。透過走入廠房，同學能夠直擊鏡框加工、鏡片處理、表面處理、拋光與塗層、品質檢測與包裝出貨等重要環節，理解從設計到量產之間的每一步如何影響最終產品。參訪讓學生對材料選擇、人體工學、可持續性與品質管理有更全面的認識，進而激發他們對加入眼鏡設計專業的興趣與志向。

在課程發展層面，商會亦積極提供建議與意見。貴會一直有派代表參與職業訓練局（VTC）轄下的珠寶及鐘錶業訓練委員會，與我們一起就課程架構、技能標準、人才需求、行業走勢等重要議題進行討論。這種制度化的交流機制，有助學院在課程設計上兼顧學術深度與行業需求，並適時加入新興主題，如智慧眼鏡、創新材料、數碼化生產流程、用戶體驗研究及ESG與可持續設計。透過與商會的實務對接，HKDI能更精準地培育具備跨學科能力與商業思維的畢業生。

就行業趨勢而言，「人工智能」無疑是近年的熱門議題。HKDI為商會設計及開辦了「人工智能眼鏡設計工作坊」供商會會員參與，讓學員

初嘗以AI輔助設計的可能性，學員普遍反映獲益良多！展望未來，我們期望與商會深化合作，為會員提供更貼近需要的在職培訓與持續專業發展（CPD）課程，協助企業在數碼轉型與人才升級上走得更穩更遠。

總結而言，HKDI與香港中華眼鏡製造廠商會之間的長期合作，為本地眼鏡設計教育與產業創新注入強大動能。由獎學金到友師計劃、由設計比賽到參觀探訪、由課程諮詢到AI工作坊，每一個環節都體現了「以學生為本、以行業為師」的教育理念。我們衷心感謝商會歷年來的支持與付出，也期盼今年的友師計劃能再創新猷，讓已配對的六位同學在業界導師的引領下，創作出更具設計深度與市場價值的作品。未來，HKDI將持續秉承「思考與實踐」的教育方針，與商會及各會員企業攜手，透過更多共創項目、實習機會、專題研究與人才培訓，為香港眼鏡產業培育兼具創意、技術與責任感的新一代專業人才。再次感謝商會的鼎力支持，讓我們共同見證並推動香港眼鏡設計的持續進步與精彩發展！

Mission & Objectives 使命與目標

香港中華眼鏡製造廠商會有限公司
於一九八二年根據香港法例成立，立會宗旨如下

宣揚香港眼鏡製造業及其附屬產品，開拓海外新市場

引入先進科技及促進同業互相合作精神和共同利益

本會為貫徹執行使命，輔助本業發展及對會員業務作實質性襄助，其歷屆執行委員會的工作均以加強香港眼鏡工業在國際市場的競爭能力為目標。

**Established by ordinance in 1982, the Hong Kong
Optical Manufacturers Association Limited (HKOMA) is tasked:**

To promote Hong Kong optical manufacturing and related products, and to open
new market overseas.

To bring in advance and latest technologies, to foster co-operation between
manufacturers in this same field, and to work close together to their mutual benefit.

In order to carry on the mission of HKOMA as well as to provide practical and
valuable assistance to our associates and the industry, the association plays an active
role in enhancing the strengths of the industry's global competitiveness.

ACTIVITIES REVIEW

The activities conducted by Hong Kong Optical Manufacturers Association (HKOMA) 23rd Executive Committee in the year of 2025 are listed as below: -

Production Upgrading

15/01/2025-30/04/2025 Participate in the mentorship program of Hong Kong Design Institute (HKDI)

In order to further enhance the level of Hong Kong eyewear design and establish a new generation of eyewear design concepts, HKOMA invites the following 4 members for the mentorship program of HKDI:

ARTS OPTICAL COMPANY LTD. STANDARD OPTICAL FACTORY
SUN HING OPTICAL MANUFACTORY LTD. UNITED CREATION OPTICAL CO., LTD.

The program was started on 15 January 2025. Each participating manufacturer mentor spent about 45 minutes every week on the ZOOM / MICROSOFT TEAM online platform to communicate with a student recommended by HKDI. The students reported their design concepts to their instructors for professional advices. In the later stages of the program, the instructors created a set of glasses for their students' designs, which were displayed at HKDI's graduation exhibition on 27th June 2025.

Jan.- Mar.2025 Hong Kong Productivity Council - ReachOUT Fund Lecture

The Hong Kong SAR government has launched more than 70 funding schemes to promote the development of different industries and is committed to supporting the upgrading and transformation of small and medium-sized enterprises. The "Small and Medium Enterprises Funding Section" of the Hong Kong Productivity Council has specially arranged seminars to introduce various popular government subsidy schemes to members of HKOMA and provided free "one-on-one consultation" services during the period of January to March 2025.

09/06/2025 HKOMA Advanced Eyewear 3D Printing Technology Study Mission

HKOMA lead 27 representatives from 11 member companies visited ORFIN HIGH-TECH INTERNATIONAL LTD. in Zhongshan city, mainland China on 9 June 2025. The visit with an aim that members will be inspired and reflect on the correct use of 3D printing technology, so as to achieve innovative and differentiated product development.

活動回顧

香港中華眼鏡製造廠商會第23屆執行委員會在2025年的會務工作概要如下:-

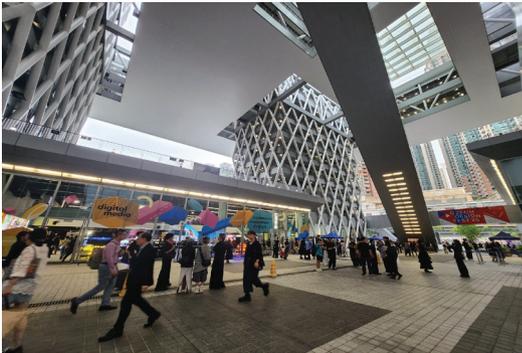

生產及技術

15/01/2025 – 30/04/2025 參與 香港知專設計學院 的友師計劃

本會為了進一步提升香港眼鏡設計水平和建立新一代眼鏡設計概念，邀請以下4間會員參與香港知專設計學院的友師計劃：

雅視光學有限公司 實用眼鏡廠 新興眼鏡製造廠有限公司 聯與眼鏡光學有限公司

此計劃於2025年1月15日開始，參與的每一位廠商導師於每星期用約45分鐘在ZOOM / MICROSOFT TEAM 的線上平台與香港知專設計學院推薦的一位學生交流，讓該位同學向導師匯報其設計概念，而導師將給予同學專業意見。在計劃的後期，導師為其學生的設計打造一套眼鏡首飾，並安排於2025年6月27日該學院畢業展中展示。

1-3/2025 生產力局 < ReachOUT 基金資助 > 與會員個別講解

香港特區政府已推出超過70個資助計劃促進不同行業發展，致力支持中小企升級轉型。香港生產力局「中小企資援組」透過商會安排，在2025年1至3月期間特別為有需要的會員提供免費「一對一諮詢」服務，介紹各項熱門政府資助計劃。

9/06/2025 先進眼鏡3D打印技術考察

本會組織了11家會員企業共27位代表於2025年6月9日前往中山市小欖鎮的奧爾菲新科技國際有限公司參觀，是次訪問旨在透過交流，啟發會員廠商對3D打印技術的正確運用和進行反思，從而實現創新和差異化的產品開發。

09/07/2025 & 22/09/2025 The 25th Hong Kong Eyewear Design Competition - Judging Process

The theme of this year's competition was "Blending Tradition and Technology." The preliminary round was held in the afternoon of July 9th at the SME Training Room C, Expo Galleria, with Mr. Kerry Chan, a committee member of HKOMA, serving as one of the judges. Ten entries were shortlisted from both the [Open Group] and [Student Group] categories in the preliminary round. Eyewear manufacturers were invited to produce mock-up for the ten finalists of Student Group entries. Each shortlisted student entry received a HK\$2,500 subsidy from the organizers. The final round was held in the afternoon of September 24th in the Wan Chai Convention and Exhibition Centre SME meeting room as well, with Mr. Nathan Wong, committee member of HKOMA, serving as one of the final judging panel members.

5/11/2025 Award Presentation of 25th Hong Kong Eyewear Design Competition

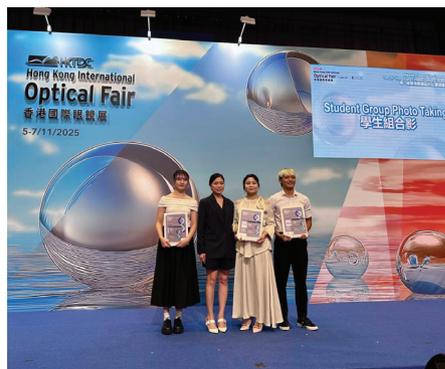

HKOMA and HKTDC have organized the competition with sponsorship from the Hong Kong Polytechnic University (PolyU) and the Hong Kong Institute of Vocational Education (IVE) since 1999. It aims to encourage new design ideas for Hong Kong eyewear products.

The competition of the student group and open group were attracted over 100 design entries. The total amount of winning design cash prize was HKD32,000, of which HKD20,000 was sponsored by HKOMA, and the remaining HKD12,000 was covered by the HKTDC.

This year marks the 25th edition of the competition. The list of winners and the awards ceremony were held in the afternoon of the first day of the Hong Kong International Optical Fair (November 5, 2025) at the Brand Name Gallery (BNG) Rendezvous. The winning and shortlisted works were also displayed in the Brand Name Gallery (BNG) Rendezvous during the fair.

An appreciation acknowledgement is given to the sponsors who made the full scale mock-up for the student group finalists of the Competition in 2025. They are:-

ARTS OPTICAL CO., LTD.
CONCEPT EYEWEAR MANUFACTURER LTD.
STANDARD OPTICAL FACTORY
SUN HING OPTICAL MANUFACTORY LTD.
UNITED CREATION OPTICAL CO., LTD.

2025 Hong Kong Design Institute – Hong Kong Optical Manufacturers Association (HKOMA) Scholarship

In order to encourage outstanding students in the design courses of the Hong Kong Design Institute, HKOMA sponsored HKD 5,000 to the institute in 2025 to establish the scholarship.

09/07/2025 及 22/09/2025 第25屆香港眼鏡設計比賽 作品評選

本屆香港眼鏡設計比賽的設計主題: Blending Tradition and Technology 糅合傳統與科技, 初賽於7月9日下午在會展SME Training Room C, Expo Galleria 舉行, 本會陳汛恆委員為其中一位評委。初賽在 [公開組] 及 [學生組] 各選出10名的入圍作品, 並邀請眼鏡廠商為學生組10名入圍設計生產首辦, 每項設計的首辦製造, 可獲大會資助2500港元。而決賽於9月24日下午在灣仔會展會議室舉行, 本會代表黃銘賢委員為其中一位評審團成員。

05/11/2025 第25屆香港眼鏡設計比賽 優勝作品頒獎

本會為了推動本地創作, 鼓勵更多具設計才華的人士投身本業, 自1999年與香港貿易發展局携手, 每年舉辦香港眼鏡設計比賽, 並邀請香港理工大學及香港專業教育學院為協辦機構, 比賽分公開組及學生組, 優勝作品現金獎共港幣三萬二仟圓, 其中二萬由本會贊助, 餘下一萬二仟圓由貿發局承擔。

本年比賽是25屆, 得獎名單及頒獎儀式於香港國際眼鏡展首天(05-11-2025)下午在展會品牌 Brand Name Gallery (BNG) Rendezvous 舉行, 得獎及入圍作品亦在展覽會期間於品牌廊Brand Name Gallery (BNG) Rendezvous 展示。

謹此向下列製造本屆學生組入圍作品 [實辦] 的贊助商致謝: -

雅視光學有限公司
高信眼鏡廠有限公司
實用眼鏡廠
新興光學集團控股有限公司
聯興眼鏡光學有限公司

2025 香港知專設計學院 – 香港中華眼鏡製造廠商會獎學金

本會為鼓勵香港知專設計學院設計課程的優異成績學生, 於2025年向學院贊助港幣5000, 設立此項獎學金。

Marketing Promotion

01/01/2025 Publication of HKOMA Annual Directory Issue 2025 and Webpage Updated

HAUG – Technologies for Spectacle Frame Manufacturing

Our product range covers the entire scope of all required appliances and equipment for the manufacturing of metal and plastic frames, amongst them CNC processing centers for frames and lenses, CNC eye-rim bending machines, welding and soldering workstations, metal forming systems such as, for example, hydraulic presses and automatic rotary swaging machines, assembly devices, surface technology, etc. All of them featuring the highest quality and latest innovation.

Just to name a few of our well-known bestsellers - amongst other things:

HAUG –眼鏡架製造技術

我們的產品範圍涵蓋製造金屬和塑料鏡框所需的所有器具和設備，包括鏡框和鏡片的CNC加工中心、CNC繞圈機、碰焊接和錫焊接工作站以及金屬成型系統，例如油壓機和自動旋轉式捋線機、組裝設備、表面處理技術等。所有產品都是最優質和先進。

列舉幾款我們知名暢銷的產品 - 其中包括：

SCHÜSSLER S-514

SCHÜSSLER S-514 Fully-Automatic 3-D CNC Rim-forming Machine

All in all the most suitable machine for today's requirements of superbly wound eye-rims including cylindrical and toric base curves. Highly precise mechanics perfectly match with absolutely professional software for almost unlimited utilization. LAN+USB connectivity (Industry 4.0 ready). New command entry via touchscreen.

SCHÜSSLER S-514

SCHÜSSLER S-514全自動3-維CNC繞圈機

這是最合適的機器滿足現今對繞製精緻的圓柱體和環面打彎鏡框的要求。高度準確的機械與絕對專業的軟件完美配對，可以不受制肘地使用。透過LAN線和USB接駁(實現工業化4.0)。新指令可以通過觸屏輸入。

AM SOLUTIONS S1 – for 3D printed eyewear

Additive manufacturing places itself next to traditional production methods as a new technology for eyeglass frame making. Haug provides a range of scalable process machinery and media that are specifically suitable for 3D post-processing of plastic and metal components. S1, your solution for cleaning, smoothing and homogenizing of powder bed-based polymer printed eyewear parts (SLS) in just one system. It complements the use of HBR or HBFE machines for grinding. In addition to automatic blasting, the S1 enables automated and effective removal of excess powder after the printing process and provides a homogeneous surface finish.

增材製造解決方案 S1 – 專為3D打印眼鏡而設

增材製造技術作為眼鏡框製作的新興工藝，正與傳統生產方式並駕齊驅。我們提供一系列可擴展的製程設備與滾料，專為塑膠及金屬零件的3D後處理而設計。S1系統能一站式完成粉末床基礎聚合物的打印眼鏡零件(SLS)的清潔、平滑和均質化處理。此設備可與HBR或HBFE研磨機協同作業。除自動噴砂功能外，S1更能於打印後自動高效清除多餘粉末，並提供均勻的表面處理效果。

NEW CEIA POWER CUBE SYSTEM 900

This innovation features all the advantages of a temperature control system along with the well-known strengths of CEIA's solid state generators, united in one device instead of two.

The system delivers 3.5 kW power output, whilst maintaining its well-known high efficiency, dependability and compactness, typical of CEIA high frequency generators, and in addition integrate the temperature control system and a high-resolution graphic TFT display for easy programming of all generator working parameters.

Up to two antioxidizing gas dispensers can also be connected.

As an option, the System 900 can be equipped with a wide selection of analog and digital I/O and a fieldbus interface for easy integration into company networks, and automatic production systems.

CEIA新的POWER CUBE系統900

這項改革特點是將溫度控制系統的所有優點和享負盛名的CEIA發熱機由原先的兩部結合為一部。

該系統提供3.5kW的功率輸出，同時保持其眾所周知的高效率、可靠性和精巧以及CEIA高頻發熱機的典型特徵，此外還配備了溫度控制系統和高分辨率圖形TFT顯示屏，可輕鬆對所有發熱機進行編程的工作參數。

最多可連接兩個抗氧化氣體分發儀。

作為一個選項，System900可以配備多種模擬和數字I/O及現場總線接口，以便輕鬆集成到公司網絡和自動生產系統中。

RÖSLER

RÖSLER® Ultimate surface treatment of spectacle frame components. A perfect synthesis of automated machines and media – plastic and ceramic chips – everything developed and configured for wet deburring – grinding – polishing of spectacle frame components. RÖSLER® technology: your way to efficient and cost-saving working methods. Rotary Vibrators and High Energy Centrifugal Systems are available in different versions and sizes. Photo shows HBFE 02.3 high energy machine, 2 bowls for automatic grinding + 1 for high shine polishing of small metal components.

RÖSLER

RÖSLER®完美的表面處理

眼鏡框架配件。綜合的自動化機器，配合優質的塑膠及陶瓷研磨石，清除鏡架配件的毛刺、研磨與拋光所建構的濕滾工藝。RÖSLER®技術帶領你步向高效益及節省成本的生產路向。旋繞式震機和高能量離心系列配備有多種不同版本及尺碼可供選擇。照片所示為HBFE 02.3高能機，配備兩個自動研磨滾筒及一個高光拋光滾筒，專為小型金屬零件設計。

OBE strengthens its pioneering role in smart eyewear hinges with FLOWLINK

At HKOF 2025, OBE presents “FLOWLINK”, its patented smart hinge for connected eyewear, nominated for the SILMO d’ Or 2025 in technological innovation. Made of medical-grade stainless steel, FLOWLINK consists of two parts – housing and cover – creating a robust yet simple construction. Initially offered in three widths, it adapts flexibly to smart frames with different cable widths. Its neutral design ensures continuous integration, while a channel provides safe, stress-free cable routing. Mounting options include screws, pressing or gluing.

In collaboration with Pforzheim University’s Faculty of Design, FLOWLINK was integrated into a prototype developed by student Mohammad Jarad. With FLOWLINK, following SMARTLINK, OBE introduces its second universal hinge for smart eyewear.

Since 2010, OBE has realised numerous customer-specific smart eyewear projects with specialised hinges using different technologies such as metal injection molding, 3D printing, precision casting, and profile machining etc. OBE continuously expands its technological portfolio across its production sites in Germany, China, Italy, and, most recently, Vietnam. With its strong expertise in managing complex hinge development projects, OBE ensures smooth coordination from concept to series production. This comprehensive setup enables OBE to develop and manufacture prototypes as well as small- and large-scale series efficiently and reliably. If you have any further inquiry, please contact OBE (H.K.) Ltd.

OBE憑藉FLOWLINK強化其在智慧眼鏡鉸鏈領域的先驅地位

在2025年香港眼鏡展(HKOF2025)上,OBE展示了其專利智慧眼鏡鉸鏈產品“FLOWLINK”,該鉸鏈獲得了2025年SILMO d’ Or 技術創新獎提名。本產品採用醫用級不鏽鋼製造,由外殼與蓋板兩部分構成,結構簡單牢靠。首批推出的三種規格可靈活適配不同線材尺寸的智慧眼鏡架。鉸鏈設計中性化,無縫集成,內建的線槽為線提供了安全無應力的走線。安裝方式包括螺絲固定、釘鉸或膠水黏接等多種選擇。

在與普福爾茨海姆大學設計學院的合作中,FLOWLINK 被成功應用於由學生開發的原型樣板中。使得FLOWLINK這款鉸鏈成為繼 SMARTLINK 之後,OBE推出的第二款通用型智慧眼鏡鉸鏈。

自 2010 年以來,OBE 已成功為許多客戶定制了智慧眼鏡鉸鏈,這些專案採用了多種鉸鏈製造技術,如MIM(金屬粉末注射成型)、3D 列印、精密鑄造以及型材加工等。OBE 持續在德國、中國、義大利以及最新的越南生產基地擴展其技術組合。憑藉在複雜鉸鏈專案管理方面的豐富經驗,OBE 能夠從概念到量產實現高效協調。這套完善的系統使 OBE 能夠有效率且可靠地開發和生產原型、小批量及大批量產品。

如有任何疑問,請聯絡 OBE (H.K.) Ltd.

perfect for Asian faces

- **Ideal for flat nose shapes**, commonly found in Asian and African facial profiles.
- **Extended, freestanding pad arm** allows precise adjustment to individual nasal angles.
- **Optimized pad arm length** ensures high positioning of the frame and minimizes contact with cheeks and eyelashes.
- **Easy and precise adjustment** of the pad arms allows for stable positioning tailored to individual nasal angles – ensuring optimal fit and wearing comfort.
- **Elevated fit** position – see more, without distractions.
- **Flexible pad arm geometry** supports a tailored fit experience, no matter the face shape.

**100% Made in Germany in our own facilities
and with tested materials only**

真空纳米镀膜的卓越优势

The Superiority of Vacuum Nano Coating

深圳雅锐真空纳米科技有限公司—专注金属眼镜架电镀表面处理。团队核心成员拥有20年表面处理经验，具有较强的开发 and 创新能力，生产工艺成熟稳定，匠心打造产品持久耐磨的非凡品质。公司秉承客户至上理念，以优质产品和准时交付，让您满意。

Shenzhen ARAY Vacuum Nano Technology Co., Ltd. specializes in the electroplating surface treatment of metal eyeglass frames. Our core team possesses 20 years of surface treatment experience, robust development and innovation capabilities, and mature, stable production processes. We employ meticulous craftsmanship to create products of extraordinary quality with long-lasting durability.

Adhering to a customer-first philosophy, the company is committed to your satisfaction through high-quality products and on-time delivery.

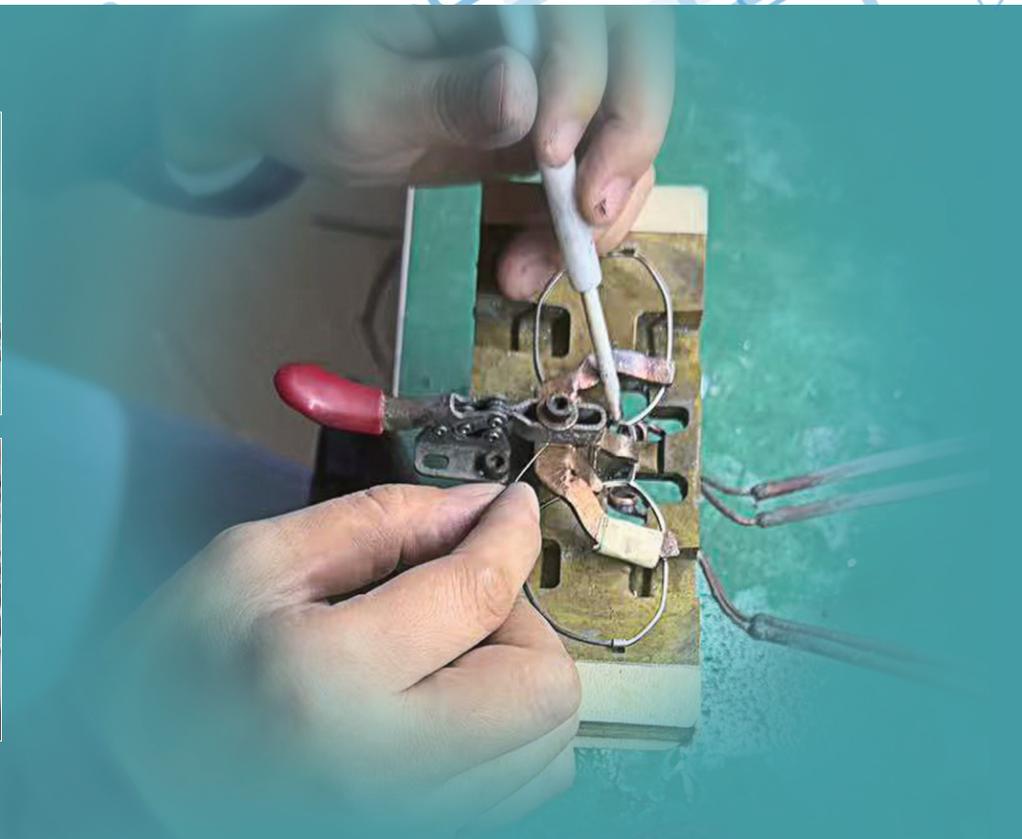

公司具备完善的真空单双色电镀、水镀单双色电镀、厚金电镀及单双色喷油工艺等。以真空纳米技术（PVD）为核心，通过高真空环境形成结合力强、高硬度的致密纳米镀层，显著提升产品的耐磨与耐腐蚀性能，融合科技与艺术，点亮工业之美，推动品质新巅峰。所有产品均能通过国标GB、欧盟CE测试标准。真空纳米（PVD）工艺绿色环保，产品符合RoHS/REACH标准，所有钛金属均可做到无镍无磁。

The company offers a comprehensive suite of processes including vacuum single/two-tone plating, water plating single/two-tone plating, High-Thickness Gold Plating, and single/two-tone spray painting. Utilizing Vacuum Nano Technology (PVD) as the core, we form a dense nano-coating with strong adhesion and high hardness in a high-vacuum environment, significantly enhancing product wear and corrosion resistance. We fuse technology with art, illuminating the beauty of industrial design and driving quality to new peaks.

All products comply with GB and CE testing standards. The Vacuum Nano (PVD) process is green and environmentally friendly, with products meeting RoHS/REACH standards. All titanium materials can be processed to be nickel-free and non-magnetic..

质量就是生命

客户就是上帝

公司简介 ABOUT US

韦臣国际工业有限公司

VISION INTERNATIONAL INDUSTRY CO., LTD

韦臣国际是一家专业生产眼镜标准配件的厂家，已有近二十年的历史，产品以高档为主，所用的原材料为高镍、蒙乃尔、不锈钢、铍铜、纯钛等，是一家具有很强实力的厂家。

产品品种齐全，质量保证，交货及时。近几年来，我们还开发了多种高档的纯钛和不锈钢铰链，及不锈钢定位铰链，投入市场后，受到国内外客户的认可和肯定，本厂以质量和信誉为宗旨，深受广大客户的信赖，我们的目标是追求卓越，精益求精。

公司本着“质量就是生命，客户就是上帝”的企业宗旨，积极开发新材料应用，不断推出质优、款新的精品眼镜标准配件。一贯坚持以“最优良的质量和最满意的服务”为经营宗旨，并长期获得良好的信誉，深受眼镜业、专业厂家的好评。我们竭诚欢迎国内外客商前来垂询惠顾。我们愿以上乘的质量、优惠的价格、优质的服务与国内外的朋友们结为伙伴，携手共进，共创辉煌。

Vision International Industry Co., Ltd. is a factory specializing in the production of glasses fittings of precision parts. It has twenty years history. The products are mainly of top grade. The raw materials adopted are high-nickel, Monel, stainless steel, Beryllium copper, pure titanium etc. It is a factory with strong strength.

The varieties of products are complete, with guaranteed quality and prompt delivery. In recent years, we have developed multiple pure titanium and stainless steel hinge, which have been accepted by customers from home and abroad since putting into the market. The factory takes the quality and credit as the tenet. It has been trusted by most customers. Our aim is to pursue the excellence and keep improving.

With the enterprise tenet of “Quality is the life, customer is supreme”, our company has developed new material application and bring out successively the elaborate glasses fittings with high quality and new model. We consistently insist on the management tenet of “Most excellent quality and most satisfactory service”, we have obtained good reputation, and received the appraisal from glasses industry and professional experts. Sincerely welcome merchants from home and abroad to visit us and do business with us. We will provide supreme quality, favorable price and high quality service for the friends from home and abroad, go forward hand in hand, and create mutual brilliance.

CPT (ShenZhen) Industrial Consumable and Equipment Co.,LTD

深圳市昌鹏通工业材料设备有限公司，专注于表面处理材料与设备的研发、生产与销售，为客户提供一站式表面处理综合解决方案！

核心产品与服务

1. 表面处理辅料

- 干式/湿式抛光研磨膏系列
- 干式/湿式研磨抛光颗粒系列
- 抛光蜡系列
- 抛光轮系列
- 表面处理剂系列
- 助焊剂系列
- 拼料系列
- 油漆系列

品质稳定，环保高效，满足多样化工艺需求！

2. 表面处理设备

- 干式/湿式滚筒研磨机、单/双面平面抛光机
- 环保一体抛光机、
- 干式/湿式涡流机、免抛溜光机

精密设计，性能卓越，支持非标定制，助力生产效率倍增！

3. 海外客户供应链配套服务

- 越南自建辅料/油漆生产及仓储物流点，服务映射越南、泰国和柬埔寨客户。

有效解决客户出海供应链难题。

4. 全流程抛光解决方案

- 从工艺设计、技术指导到人员培训，提供专业定制化服务，解决行业难题！

行业应用

- 涵盖眼镜、钟表、珠宝、饰品五金等高端制造领域，助力产品表面光洁度与质感全面提升！

专注表面处理，助力产业升级！

日本超薄羽毛钛框线系列

什么是超薄羽毛钛框线

日本原材料，日本加工生产的无缝贴合镜片形状的一种框线（使用羽毛钛合金），能有效抑制镜片的扭曲跟弹片。强度为纯钛三倍（本社资料）的一种特殊钛合金，纤细兼备刚性的特点，为眼镜设计带来新的创意。另有各类日本纯钛及钛合金原材料可供选择，广泛应用于眼镜，医疗，钟表行业。

LSX-LXJ-QZD

CNC全自动拉线机 (律线机)

CNC fully automatic wire drawing machine

本机自主研发, 采用数字化程序、变频控制, 原材料自动送料一次加工成型。

CNC全自动拉线机 产品参数

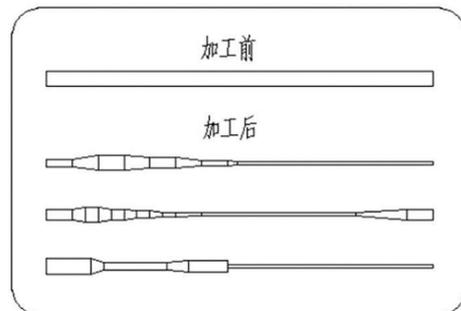

型 号 Model No.	LSX-LXJ-QZD
电源电压 Supply Voltage	380V
功 率 Power	4KW (每小时2度节, 节约用电)
外形尺寸 External dimensions	2100*850*1800

CNC全自动拉线机 产品功能

可变径加工6.5 - 0.6的B钛、记忆合金、猛料等多种硬金属材料; 可变径加工8.0 - 0.6的纯钛、白铜、不锈钢等多种金属材料。

CNC全自动拉线机 产品特点

- 本机加工噪音小、工作性能稳定;
- 加工精度高、变径范围大;
- 可实现多段任意精确变径加工;
- 光洁度好、编程方便快捷。

Shenzhen sancheng glasses CO.,Ltd

公司创建于2015年 是一家专业生产眼镜配件的高品质工厂。 主营： 各类中高品质的冲压件， 高要求， 难度大的各类眼镜配件、 激光、 腐蚀、 CNC精密加工、 线割、 各类眼镜五金件打弯等。 公司一直专注于各类眼镜五金产品的制造， 有一支非常专业的丰富的技术团队； 以精益求精， 以真诚求服务。 公司位于深圳市龙岗区世界著名的眼镜生产制造基地。

保障品质升级了车间， 整齐的机器与工位， 高级化环境

每个配件质量都是做到精品， 一体化成型， 定义现代眼镜工业新标准

三诚公司是一支专业又有丰富经验的团队， 公司贵在人诚、 心诚、 事诚。 以人诚“凸显特色， 追求卓越”为公司宗旨， 始终在业务上精益求精， 对客户真诚服务。 三诚公司将以最诚挚的热情和开放的姿态欢迎广大客户的惠顾。

KINGFINE&U-METAL

今豐國際有限公司

Kingfine International Limited

深圳市優米特新材料 科技有限公司

Shenzhen U-Metal New Material Technology
Co., Ltd.

1. 金屬材料一體化解決方案

提供涵蓋環保無鎳合金、銅合金、鈦合金及不鏽鋼的全系列眼鏡材料，支持從原料到成品的完整供應鏈需求。

2. 強勁研發實力

與多所高校建立聯合研發中心，截至2025年，已擁有30余項知識產權，含6項發明及12項實用新型專利授權，並獲“國家高新技術企業”“專精特新企業”等稱號。

3. 卓越品質保障

擁有先進檢測中心與眼鏡金屬材料企業標準，品質終身追溯，確保出品穩定，質量領先。

4. 可持續發展理念

通過GRS/RCS認證，以環境保護理念整合生產製造，履行企業社會責任。

5. 先進環保無鎳合金系列

具備安全、可持續的環保無鎳合金產品線，為市場提供綠色創新選擇。

今豐國際有限公司 & 深圳市優米特新材料科技有限公司，擁有27年行業經驗，始終專注於金屬原材料的研發、加工與技術服務，致力於為眼鏡行業提供專業的一體化金屬原材料解決方案。

OPTILINK VISION: CONNECTING TO THE ASEAN EYEWEAR OPPORTUNITY

Capitalizing on the ASEAN eyewear market's vitality and the regional integration under the RCEP agreement, WOF has created a new global exchange platform for the eyewear industry. Against this backdrop, the inaugural ASEAN Int'l Optics Fair (WOF | Bangkok) was successfully held at the IMPACT Exhibition Center in Bangkok, Thailand, from October 9 to 11, 2025. As the largest and only professional optics fair in the ASEAN region in 2025, the fair spanned over **10,000** square meters, uniting **230** exhibitors and more than **100** international brands showcasing the complete eyewear industry chain. It successfully attracted over **5,500** professional visits from more than **50** countries and regions, thereby injecting substantial momentum into regional industrial collaboration and innovation.

Based on the success of the inaugural edition and strong market demand, the next ASEAN Int'l Optics Fair (WOF | Bangkok) will be held in Bangkok from October 9 to 11, 2026. Building on the strengths of the previous edition, the fair will establish featured zones and a series of concurrent events, including buyer-supplier meetings, academic conferences, and study tour, creating a multi-dimensional industry event for all participants. Through these initiatives, we are committed to delivering richer business opportunities, deeper networking platforms, and an enhanced experience for all exhibitors and buyers.

Our next stop will be the 24th China Wenzhou Int'l Optics Fair (WOF | Wenzhou) from May 8-10, 2026. Pre-registration and applications for FREE hotel accommodation for qualified buyers are now available. For further details, please visit our official website: <https://www.opticsfair.com>.

Arts Group

ARTS OPTICAL INTERNATIONAL HOLDINGS LTD.

Arts Optical International Holdings Ltd. (Hong Kong stock code: 1120), a public listed company in Hong Kong Stock Exchange, specialized in design, manufacture and distribute high quality optical frames and sunglasses. The group has over 50 years of experiences in the industry, providing our professional service to more than 200 customers across over 30 countries worldwide.

Arts Group aims at delivering fashionable, functionable and affordable eyewear. We invest substantially in research development, in order to utilize the latest modern equipment and improve production processes.

Arts Group also actively promotes the concept of environmental protection and sustainable development, promoting high-quality development of green factories. Under the Ordinance of National Green Manufacturing Project Implementation Guidelines, we introduce a large number of eco-friendly elements, such as: harmless raw materials, clean production, wastage recycling and other green factories designs, to facilitate production efficiency and inject new momentum into the group.
